FLIP FLOPS OR SANDALS

Closed-toe shoes are too tight and may rub the solution off causing your feet to look streaky. Stick to something loose and open-toed like a sandle of flip-flop.

Please also refrain from wearing socks for the first 24 hours of development.

can I put on deodorant after getting my spray tan?

not immediatly after. please wait until after your first rinse before putting on any deodorant.

we will apply some setting powder to your underarms to help take away that stickiness and prevent sweating.

Sun Siren Tennessee

Is there anything I shouldn't use on my skin after my session?

avoid scented lotions, perfumes, astringents, and cleaning solutions with acid or peroxide.

anything harsh chemicals will wear away your tan more quickly.

If you use retinol products please wait at least 3 days post spray tan.

Sun Siren Tennessee

what do I avoid after getting my spray tan?

swimming, long hot showers/baths, saunas, and excessive sweating

do not exfoliate until the very end of your tans life

do not use bar soaps or body washes with heavy moisturizers such as dove

all other beauty appointments, such as mani/pedi's, hair coloring, waxing should be done at least 1 day prior to application

Sun Siren Tennessee

can I wash my hair post spray tan?

no! washing your hair the same day as your spray tan will leave streaks on your body. if you need to wash your hair we recommend doing it before your session or 24 hours after.
