ABOUT BURY CAPS

The Bury Caps Font is inspired by the Bury Bible, a magnificent twelfth-century manuscript in the library of Corpus Christi College, Cambridge. The capitals that begin each book of this Bible are stately and elegant, while their extremely tight spacing and numerous ingenious ligatures add a touch of whimsy.

Use of the Bury Caps font is simple. The lower-case slots contain fairly plain letters:

MASTER HUGO MADE THIS BOOK FOR HERVEY AND TALBOT

But if you type in upper-case, the result will be extravagant:

MASTER HUGO MADE TH\$ BOOK FOR HERVEY AND TALBOT

The font's numerous ligatures (see below) operate almost exclusively on upper-case letters (sometimes on upper- and lower-case combinations): most modern word processors will use these automatically. For a less overwhelming effect, mix upper- and lower-case:

MASTER HUGO MADE TH\$ BOOK FOR HERVEY AND TALBOT

The OpenType features of the font are fairly simple: select Stylistic Alternates ('salt') for a few alternative letter-shapes (if your software does not give you access to this feature, try Stylistic Set 1 ('ss01') or Ornaments ('ornm'). Use Superscripts ('supr') to select small raised vowel characters:

That's pretty much all there is to it! Enjoy the font, but

USE IT SPARINGLY.
