

HOW TO GET TRACEABLE ONTO CANVAS

1. Open the .PDF traceable.
2. Print the traceable. Many traceables will print on multiple sheets.
3. Cut along the dotted lines on the traceable and tape together.
4. Use a sheet of graphite paper or scribble pencil on the back of the traceable.
5. Place the graphite paper between the canvas and traceable.
6. Trace on the lines of your print out.
7. The design will transfer to the canvas.
8. Optional but many times preferred: use a black sharpie to go over the lines so they appear darker.
