

Take your League Or Event to the Next Level with Live Scoring

Welcome to the new age of golf. Give leagues and events the look and feel of a professional tournament with **live scoring and leaderboards**.

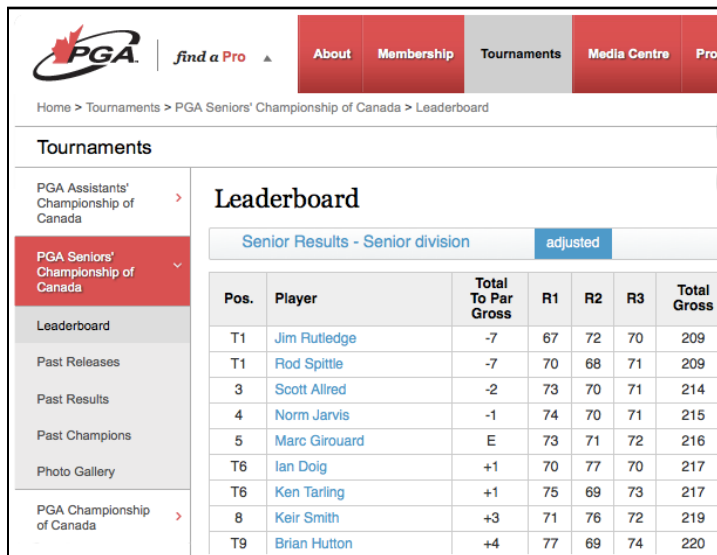

Golf Genius is web-based golf league software, **thoroughly tested by golf professionals**, and in use by hundreds of leagues and events in 40 states and 42 countries.

Golf Genius provides the ability to view live scoring for all formats played within a single event (e.g., a tournament with individual stroke play, skins, and a net better ball of partners etc).

There are 4 elements to Golf Genius' live scoring:

- Hole-by-hole score entry on the free Golf Genius iPhone, iPad, Android and Windows app
- Live leaderboard via web browser on a PC, iPad or smartphone
- TV display for group viewing on large screens
- Embed and access Golf Genius live leaderboards

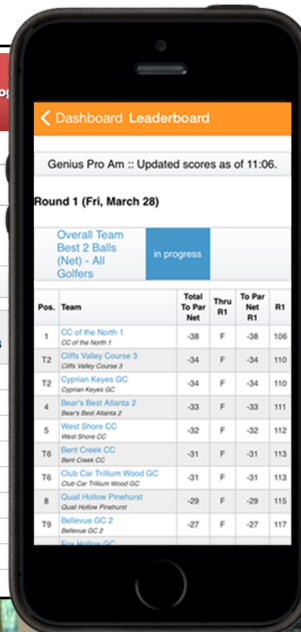

"The Invitational is our club's premier event and consists of ten six-team flights. We are always looking for ways to WOW our members and their guests and Golf Genius did just that. The ability to not only have a live scoring platform that was accessible to golfers but also their families and other club members was fantastic." - Chris Kenney, The Patterson Club

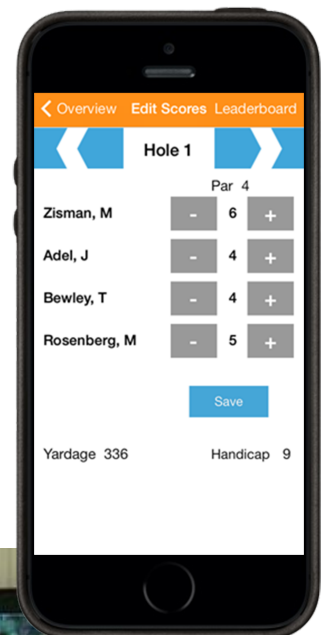

PGA of Canada website showing the leaderboard for the PGA Seniors' Championship of Canada. The page includes navigation links like 'find a Pro', 'About', 'Membership', 'Tournaments', 'Media Centre', and 'Pro'. The main content area displays the 'Leaderboard' for the 'Senior Results - Senior division' (adjusted). The table lists players, their positions, and scores.
