

Stainless Steel with PrintShield™ Finish
KDTE304GPS

Key Features & Benefits

Third Level Rack

Adds 35% more space** and makes it easier to clean long and flat cooking tools like spatulas and serving utensils, as well as items like food processor blades and mixer beaters, while freeing up space in the lower two racks.

Bottle Wash Option

Provides spray nozzles in the upper rack that can be placed deep inside tall or odd-shaped items like bottles, glasses and vases to thoroughly clean them. Each nozzle is adjustable so it can be positioned to accommodate a wide variety of dishes.

PrintShield™ Finish

Resists smudges and fingerprints. The specialized coating for stainless steel is easy to clean with just water and a soft cloth, so you can spend more time cooking and less time cleaning up the kitchen.

Capacity

Total Place Settings 14
