PREMIUM TECHNOLOGY

FASTER PREHEAT TIME

We have re-engineered our ranges to reduce the preheat time by 50% from our previous models. Enjoy more time cooking and less time waiting.

TWIN TURBO CONVECTION

Twin Turbo Convection technology uses two convection fans that each blow in a different direction within the oven. The increased airflow results in faster pre-heat time and up to 25% faster cooking time.

AIRFRY

AirFry delivers crispy food without the use of cooking oil, resulting in a healthy way to enjoy the taste of fried foods without the frying. AirFry also requires no pre-heat time. Faster and healthier cooking made easy!
