

PACKAGED SOLUTIONS

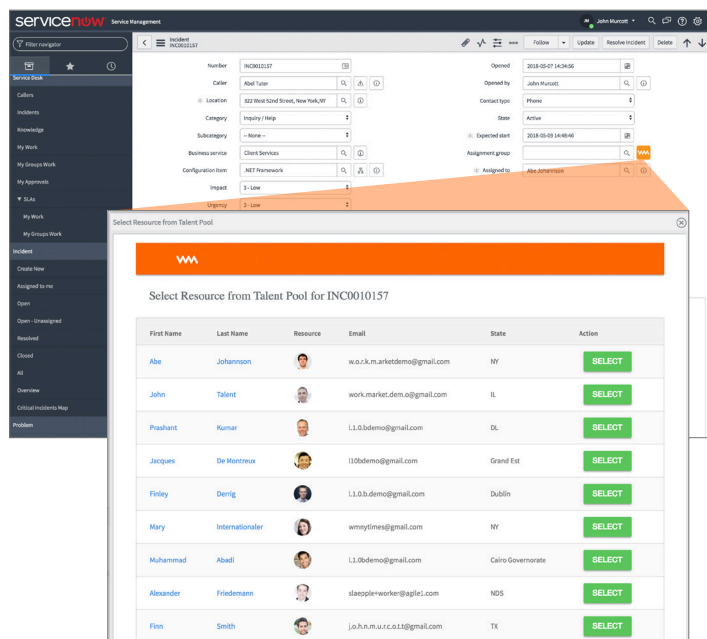

The A-Team: Advancing Your Talent Bench with Labor Clouds

Tap into your on demand Labor Cloud in WorkMarket to expand your source of vetted, high quality talent.

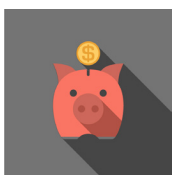

You've invested a lot in your ServiceNow implementation and want to maintain your user experience for your team within ServiceNow. But you also need to manage your contingent workforce alongside ongoing work requests.

With the WorkMarket packaged solution for ServiceNow integration, you can now create a work request and send it directly to a Labor Cloud of on demand talent managed in WorkMarket

Match your work requests to the right Labor Cloud and let ServiceNow and WorkMarket synchronize in real-time as updates and events occur.

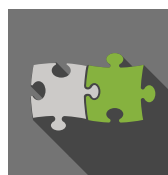

What does WorkMarket's ServiceNow Integration offer you?

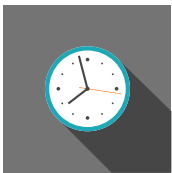

SIGNIFICANT COST SAVINGS

- You don't need ServiceNow licenses for all of your workers
- Worker profiles are managed directly in WorkMarket
- Workers use the WorkMarket mobile app throughout your engagement
- Worker engagements are unlimited

TWO-WAY INTEGRATION

- Keep up-to-date on activity in WorkMarket
- Service instance updates with notes, attachments and time tracking

TIME SAVINGS

- Your managers do not need to pivot from system to system
- All of the integrations are automated

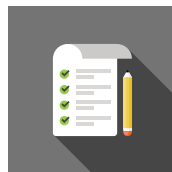

HIGH-QUALITY TALENT

- Your talent pools are rated and monitored so you can be confident you are engaging vetted talent
- Talent is automatically monitored for compliance

AN EXPANDED BENCH OF LABOR

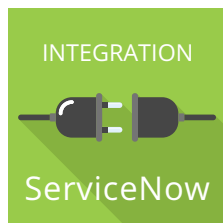

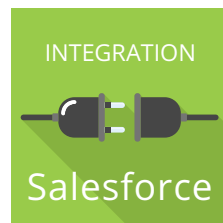

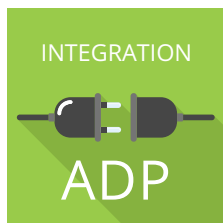

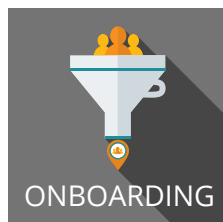

- Route tasks to your internal teams or send them to a Labor Cloud of freelancers in WorkMarket
- Smart routing rules engage the right talent at the right time

LABOR COMPLIANCE

- WorkMarket monitors activity to make sure you are engaging with your freelancers compliantly
- Smart rules prevent you and the worker from falling out of compliance
