This absolutely beautiful 5 bedroom home is a must see. So much of this home has been remodeled in the most tasteful way. The kitchen is stunning. It was enlarged to accommodate a huge white quartz top island that seats 6. All new cabinetry was installed with white quartz counter tops, full travertine back splash, stainless steel appliances, built in wine rack, soft close euro hinges, pot filler ready, laminate wood floors, and french doors. This home boasts an open concept too. The kitchen is open to the family room and a cozy fire place with stunning vaulted ceilings. But, if you want a game room or a formal area, this home accommodates that too. The separate formal dining and living room has been used as a pool table room for many social gatherings. This floor plan is so well laid out, that it's hard to believe that it has 5 spacious bedrooms. The 5th bedroom also makes for a great office since its located off of the formal area. All of the bedrooms have wonderful natural lighting, new carpeting, and fresh paint. The master suite also has vaulted ceilings giving it an even more spacious feel. If you entertain a lot, then the wrap around backyard will accommodate your needs nicely. It's very big, with block walls giving it lots of privacy. Plus, this backyard comes with a jacuzzi tub and the wall mounted TV. So, soak in the jacuzzi under the stars with drink in hand and watch your favorite programs. Seller is also including the security cameras and DVR.
