Immaculate Single Story Home located in the Heart of Corona. This home has tons of curb appeal with a well manicured lawn and a long driveway. As you enter you will find a large formal Living Room with a Fireplace to cozy up to. The engineered wood flooring spreads into the spacious Family Room with a ceiling fan overhead and a large slider leading to the backyard. The Family Room opens up to the tastefully upgraded Kitchen with a gorgeous backsplash, updated cabinets, quartz countertops, stainless steel appliances, and recessed lighting overhead. Through the Kitchen you will find a small breakfast nook with access to the garage nearby. In the hallway you will find a Whole House Fan which is great for cooling down the house quickly on a cool morning or evening. Both bathrooms have been updated and sparkling clean. The bedrooms are well proportioned and have room for beds and furniture. The Master Suite also has access to the backyard. Throughout the home you will notice crown moulding, upgraded baseboards, wall paneling, updated windows and fixtures. Once you step outside you will be in your very own private Oasis. Lush gardening and landscaping abounds with plenty of room for seating to entertain and enjoy barbecuing. An expansive covered patio keeps the patio and house shaded on those hot summer days. The home is centrally located with close access to 15 and 91 freeways as well as Shopping, Restaurants, Parks, and Schools. There solar panels which help to keep the ever rising electricity costs much lower. All systems (roof, electrical, plumbing, HVAC) are in great condition, so maintenance is low for this beautiful home. This one will not last!
