**Title:** Disinfectants/Disinfection Byproducts, Chemical and Radionuclides (Renewal)

**ICR numbers:** EPA ICR No. 1896.09, OMB Control No. 2040-0204.

**ICR Status:** This ICR is scheduled to expire on December 31, 2011. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the Federal Register when approved, are listed in 40 CFR part 9, are displayed either by publication in the Federal Register or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

**Abstract:** The Disinfectants/Disinfection Byproducts, Chemical and Radionuclides ICR examines Public Water System, primacy agency and EPA burden and costs for recordkeeping and reporting requirements in support of the chemical drinking water regulations. These recordkeeping and reporting requirements are mandatory for compliance with 40 CFR parts 141 and 142. The following chemical regulations are included: Stage 1 Disinfectants and Disinfection Byproducts Rule (Stage 1 DBPR), Stage 2 Disinfectants and Disinfection Byproducts Rule (Stage 2 DBPR), Chemical Phase Rules (Phases II/IIB/V), 1976 Radionuclides Rule and 2000 Radionuclides Rule, Total Trihalomethanes (TTHM) Rule, Disinfectant Residual Monitoring and Associated Activities under the Surface Water Treatment Rule, Arsenic Rule, Lead and Copper Rule (LCR) and revisions. Future chemical-related rulemakings will be added to this consolidated ICR after the regulations are finalized and the initial, rule-specific, ICRs are due to expire.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average .45 hours per response. Burden means the total time, effort,

or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:** Owners/operators of Public Water Systems who must report to their primacy agency. Primacy agencies, which include States. Tribes (if they have been authorized to act as primacy agencies), and EPA Regions that act as primacy agencies in Indian lands and States that do not have primacy.

**Estimated Number of Respondents:** 153,036.

**Frequency of Response:** Varies by requirement (i.e., on occasion, monthly, quarterly, semi-annually, annually, biennially, and every 3, 6, and 9 years).

**Estimated Total Annual Hour Burden:** 5,734,335.

**Estimated Total Annual Cost:** \$435,706,000 includes \$230,059,000 annualized capital or O&M costs.

**Changes in the Estimates:** There is a decrease of 384,924 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is a result of updating relevant baseline information for each rule with the most current and accurate information available (e.g., Public Water System inventories) and updating burden to incorporate the results of consultation with stakeholders. Where appropriate and available, estimated

violation, waiver, and other associated rates have also been updated to reflect current information on rule compliance.

Dated: November 30, 2011.

John Moses, Director, Collection Strategies Division.
