This Notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). The ICR contains information describing the Collection's purpose, the Collection's likely burden on the affected public, an explanation of the necessity of the Collection, and other important information describing the Collection. There is one ICR for each Collection.

The Coast Guard invites comments on whether this ICR should be granted based on the Collection being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) the practical utility of the Collection; (2) the accuracy of the estimated burden of the Collection; (3) ways to enhance the quality, utility, and clarity of information subject to the Collection; and (4) ways to minimize the burden of the Collection on respondents, including the use of automated collection techniques or other forms of information technology. In response to your comments, we may revise this ICR or decide not to seek approval of revisions of the Collection. We will consider all comments and material received during the comment period.

Information Collection Request

TITLE: Coast Guard Living Marine Resources (LMR) Enforcement Survey.

OMB CONTROL NUMBER: 1625-NEW.

SUMMARY: The purpose of this survey is to assess the effectiveness of various enforcement techniques available to the U.S. Coast Guard to promote compliance with federal LMR regulations. The results of this survey will ultimately allow the Coast Guard to link level and type of Coast Guard enforcement efforts with compliance decisions made by the regulated community.

NEED: The Government Performance and Results Act (P.L. 103-62) requires federal agencies to evaluate the performance and effectiveness of their programs. To evaluate the Coast Guard’s LMR enforcement effectiveness, it is necessary to assess regulated community perceptions of various Coast Guard enforcement efforts. This

analysis of enforcement effectiveness will in turn be used by the Coast Guard to allocate assets in such a way that efficiently maximizes influence on compliance.

FORMS: None.

RESPONDENTS: U.S. marine fishing permit holders and registered saltwater recreational fishermen.

FREQUENCY: This survey will be a one-time collection.

BURDEN ESTIMATE: The estimated burden is 3,600 hours.

DATED: February 1, 2012
