Animal and Plant Health Inspection Service

TITLE: Importation of Clementines from Spain

OMB CONTROL NUMBER: 0579-0203

SUMMARY OF COLLECTION: As authorized by the Plant Protection Act (7 U.S.C. 7701-7772) (PPA), the Secretary of Agriculture may prohibit or restrict the importation, entry, exportation, or movement in interstate commerce of any plant, plant product, biological control organism, noxious weed, means of conveyance, or other article if the Secretary determines that the prohibition or restriction is necessary to prevent a plant pest or noxious weed from being introduced into or disseminated within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS), which administers regulation to implement the PPA. The regulations in “Subpart---Fruits and Vegetables,” 7 CFR 319.56 through 319.56-8, prohibits or restrict the importation of fruits and vegetables into the United States from certain parts of the world to prevent the introduction and dissemination of plant pest, including fruit flies.

Under the regulations, clementines from Spain are subject to certain conditions before entering the United States to ensure that exotic plant pest, such as the Mediterranean fruit fly, are not introduced into the United States.

NEED AND USE OF THE INFORMATION: APHIS will collect information including a trust fund agreement, grower registration and agreement, a Mediterranean fruit fly management program, fruit fly trapping and control activities, recordkeeping, a phytosanitary certificate and box labeling to ensure that the cold treatment was successfully completed and also to ensure that no Mediterranean fruit fly are found in any of the shipment of clementines from Spain.
