SUPPLEMENTARY INFORMATION:

Background

In 1973, Congress mandated an export sales reporting requirement to ensure that all parties involved in the production and export of U.S. grain have access to up-to-date export information. This mandate was the result of huge, unanticipated, Soviet purchases in 1972 of U.S. wheat and corn that produced a sizable run-up in U.S. food prices and depleted U.S. reserve stocks. There was concern that large grain companies had an advantage in this situation because they had more information than the public on future prices and grain trade trends. Prior to the establishment of the export sales reporting system, it was difficult for the public to obtain information on exports until such commodities were actually shipped.

The statutory authority for the Export Sales Reporting Requirements, section 602 of the Agricultural Trade Act of 1978, provides for the reporting of wheat and wheat flour, feed grains, oil seeds, cotton, pork, beef and products thereof, and other commodities that the Secretary of Agriculture (the Secretary) may designate.

This proposed rule would add reporting for pork (fresh, chilled, and frozen box/primal cuts) and DDGs to the Export Sales Reporting Requirements. Under this proposed rule, all exporters of U.S. pork and DDGs would be required to report weekly information with respect to the export sales of pork and DDGs to the Export Sales Reporting Branch, Office of Trade Programs, FAS, United States Department of Agriculture (USDA). Required reportable information includes the quantity, destination, and marketing year of all pork and DDG export sales, changes in sales, and shipments per parameters identified in Appendix 1. A summary of the “U.S. Export Sales” report

is published on FAS' Web site at <http://www.fas.usda.gov/export-sales/esrd1.html>, each Thursday at 8:30 AM, Eastern Time. This change would not alter the current reporting schedule and would be undertaken using existing staff at no additional cost to the agency.

Adding pork and DDG to the Export Sales Reporting Requirements would provide an early indicator of export sales levels for U.S. pork and DDG, thus improving market transparency and enabling commodity markets to better adjust to changing export activity. This proposed rule would allow for information on the total volume of sales and shipments to be available within 2 weeks of the export sale and shipment, rather than the nearly 2-month delay experienced under the current system operated by the U.S. Bureau of the Census, which only reports actual exports.

Executive Order 12866

The proposed rule has been determined to be significant under Executive Order 12866 and has been reviewed by the Office of Management and Budget.

Regulatory Flexibility Act

The Regulatory Flexibility Act ensures that regulatory and information requirements are tailored to the size and nature of small businesses, small organizations, and small governmental jurisdictions. This proposed rule will not have a significant economic impact on small businesses.

Executive Order 12372

Executive Order 12372, "Intergovernmental Review of Federal Programs," requires consultation with state and local officials. This rule neither provides federal financial assistance nor direct federal development; it does not provide either grants or cooperative agreements.

Therefore this program is not subject to Executive Order 12372.

Nor would this rule impose substantial direct compliance costs on state and local governments. Therefore, consultation with the states is not required.

Executive Order 13175

This rule has been reviewed for compliance with Executive Order 13175, “Consultation and Coordination with Indian Tribal Governments.” This Executive Order imposes requirements on the development of regulatory policies that have Tribal implications or preempt tribal laws. The policies contained in this rule do not preempt Tribal law.

Title: Export Sales (Reporting Program) of U. S. Agricultural Commodities.

OMB Number: 0551–0007.

Expiration Date of Approval: January 31, 2014.

Type of Request: Revision of a currently approved information collection.

Abstract: Section 602 of the Agricultural Trade Act of 1978, as amended, (7 U.S.C. 5712) requires the reporting of information pertaining to contracts for export sale of certain specified agricultural commodities and other commodities that may be designated by the Secretary. The Secretary of Agriculture has the authority to add other commodities to this list. This proposed rule would add reporting for pork and DDGs to the Export Sales Reporting Requirements. Regulations at 7 CFR part 20 implement the reporting requirements, and prescribe a system for reporting information pertaining to contracts for export sales.

USDA's Export Sales Reporting System was created after the large unexpected purchase of U.S. wheat and corn by the Soviet Union in 1972. To make sure that all parties involved in the production and export of U.S. grain have access to up-to-date export information, the U.S. Congress mandated an export sales reporting requirement in 1973. Prior to the establishment of the Export Sales Reporting System, it was difficult for the public to obtain information on export sales activity until the actual shipments had taken place.

Estimate of Burden: The average burden, including the time for reviewing instructions, gathering data needed, completing forms, and record keeping is estimated to be 30 minutes.

Respondents: All exporters of wheat and wheat flour, feed grains, oilseeds, cotton, rice, cattle hides and skins, beef, pork, and any products thereof, and other commodities that the Secretary may designate as produced in the United States.

Estimated number of respondents: 360.

Estimated Number of Responses per Respondent: 252.37.

Estimated Total Annual Burden on Respondents: 45,427.

Requests for Comments: Send comments regarding (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Persons with disabilities who require an alternative means of communication of information (Braille, large print, audiotape, etc.) should contact USDA's Target Center at (202)720-2600 (voice and TDD). All responses to this notice will be summarized and included in the request for OMB approval. All comments also will become a matter of public record.

E-Government Act Compliance

FAS is committed to compliance with the E-Government Act, which requires Government agencies, in general, to provide the public the option of submitting information or transacting business electronically to the maximum extent possible.
