SUPPLEMENTARY INFORMATION:

I. Abstract

The Government Performance and Results Act of 1993 (GPRA) (Pub.L. 103-62) requires agencies to "improve Federal program effectiveness and public accountability by promoting a new focus on results, service quality, and customer satisfaction." In order to fulfill this responsibility, DOI bureaus and offices must collect data from their respective user groups to better understand the needs and desires of the public and to respond accordingly. Executive Order 12862 "Setting Customer Service Standards" also requires all executive departments to "survey customers to determine...their level of satisfaction with existing services." Executive Order 13571 "Streamlining Service Delivery and Improving Customer Service" further mandates "establishing mechanisms to solicit customer feedback on Government services and using such feedback regularly to make service improvements."

We use customer satisfaction surveys to help us fulfill our responsibilities to provide excellence in government by proactively consulting with those we serve. This programmatic clearance provides an expedited approval process for DOI bureaus and offices to conduct customer research through external surveys such as questionnaires and comment cards.

The proposed renewal covers all of the organizational units and bureaus in DOI. Information obtained from customers by bureaus and offices will be provided voluntarily. Questions may be asked in languages other than English (e.g., Spanish) where appropriate.

Topic areas serve as a guide within which the bureaus and offices will develop questions. No one survey will cover all the topic areas. The topic areas include:

(1) Delivery, quality and value of products, information, and services. Respondents may be asked for feedback regarding the following attributes of the information, service, and products provided:

- (a) Timeliness
- (b) Consistency
- (c) Accuracy
- (d) Ease of Use and Usefulness
- (e) Ease of Information Access
- (f) Helpfulness
- (g) Quality
- (h) Value for fee paid for information/product/service.

(2) Management practices. This area covers questions relating to how well customers are satisfied with DOI management practices and processes, what improvements they might make to specific processes, and whether or not they feel specific issues were addressed and reconciled in a timely, courteous, and responsive manner.

(3) Mission management. We will ask customers to provide satisfaction data related to DOI's ability to protect, conserve, provide access to, provide scientific data about, and preserve natural, cultural, and recreational resources that we manage, and how well we are carrying out our trust responsibilities to American Indians.

(4) Rules, regulations, policies. This area focuses on obtaining feedback from customers regarding fairness, adequacy, and consistency in enforcing rules, regulations, and policies for which DOI is responsible. It will also help us understand public awareness of rules and regulations and whether or not they are explained in a clear and understandable manner.

(5) Interactions with DOI Personnel and Contractors. Questions will range from timeliness and quality of interactions to skill level of staff providing the assistance, as well as their courtesy and responsiveness during the interaction.

(6) General demographics. Some general demographics may be gathered to augment satisfaction questions so that we can better understand the customer and improve how we serve that customer. We may ask customers how many times they have used a service, visited a facility within a specific timeframe, their ethnic group, or their race.

All requests to collect information under the auspices of this proposed renewal will be carefully evaluated to ensure consistency with the intent, requirements, and boundaries of this programmatic clearance. Interior's Office of Policy Analysis will conduct an administrative and technical review of each specific request in order to ensure statistical validity and soundness. All information collections are required to be designed and deployed based upon acceptable statistical practices and sampling methodologies, and procedures that account for and minimize non-response bias, in order to obtain consistent, valid data and statistics that are representative of the target populations. After completion of its review, the Office of Policy Analysis will forward the specific request to OMB for expedited approval.
