ACTION: Notice of intent to update and prepare recovery plans; request for information.

SUMMARY: The National Marine Fisheries Service (NMFS) is announcing its intent to update a recovery plan for the blue whale (*Balaenoptera musculus*) and prepare a recovery plan for the North Pacific right whale (*Eubalaena japonica*) and requests information from the public. SUPPLEMENTARY INFORMATION: Management responsibility for blue whales and North Pacific right whales lies with the Secretary of Commerce and has been delegated to NMFS. As such, NMFS is charged with the recovery of blue and North Pacific right whales, which are listed as endangered under the ESA. The recovery planning process is guided by the statutory language of Section 4(f) of the ESA and NMFS policies. Recovery planning identifies all methods and procedures that are necessary to recover any endangered species or threatened species. Section

4(f)(1)(B) of the ESA specifies that recovery plans must incorporate in each plan (i) a description of such site-specific management actions as may be necessary to achieve the plan's goal for the conservation and survival of the species; (ii) objective, measurable criteria which when met, would result in a determination, that the species be removed from the list; and (iii) estimates of the time required and cost to carry out those measures needed to achieve the plan's goal and to achieve intermediate steps toward that goal.

Section 4(f)(4) of the ESA requires that public notice and an opportunity for public review and comment be provided during recovery plan development. NMFS requests relevant information from the public during preparation of the draft Recovery Plans. Such information should address: (a) criteria for removing the these whales from the list of threatened and endangered species; (b) factors that are presently limiting, or threaten to limit, the survival of the blue and North Pacific right whales; (c) actions to address limiting factors and threats; (d) estimates of time and cost to implement recovery actions; and (e) research, monitoring and evaluation needs. Upon completion, the draft Recovery Plans will be available for public review and comment through the publication of a Federal Register Notice.
