DEPARTMENT OF TRANSPORTATION

NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION

[Docket Number NHTSA-2012-0064]

Reports, Forms, and Record Keeping Requirements

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation.

ACTION: Request for public comment on proposed collection of information.

SUMMARY: Before a Federal agency can collect certain information from the public, it must receive approval from the Office of Management and Budget (OMB). Under procedures established by the Paperwork Reduction Act of 1995, before seeking OMB approval, Federal agencies must solicit public comment on proposed collections of information, including extensions and reinstatement of previously approved collections.

This document describes one collection of information for which NHTSA intends to seek OMB approval.

DATES: Comments must be received on or before [insert date 60 days after publication in the Federal Register].

ADDRESSES: Comments must refer to the docket notice numbers cited at the beginning of this notice and be submitted to Docket Management, Room W12-140, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Please identify the proposed collection of information for which a comment is provided, by referencing its OMB clearance number. It is requested, but not required, that 2 copies of the comment be provided. The Docket Section is open on weekdays from 10 a.m. to 5 p.m.

FOR FURTHER INFORMATION CONTACT: Gary R. Toth, Office of Data Acquisitions (NVS-410), Room W53-303, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Mr. Toth's telephone number is (202) 366-5378. Please identify the relevant collection of information by referring to its OMB Control Number.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995, before an agency submits a proposed collection of information to OMB for approval, it must first publish a document in the Federal Register providing a 60-day comment period and otherwise consult with members of the public and affected agencies concerning each proposed collection of information. The OMB has promulgated regulations describing what must be included in such a document. Under OMB's regulation (at 5CFR 1320.8(d), an agency must ask for public comment on the following:

- i) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- ii) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- iii) how to enhance the quality, utility, and clarity of the information to be collected;
- iv) how to minimize the burden of the collection of information on those who are to respond including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submission of responses.

In compliance with these requirements, NHTSA asks for public comments on the following proposed collections of information:

Title: National Automotive Sampling System (NASS)

Type of Request: Extension of a currently approved collection

OMB Control Number: 2127-0021

Affected Public: Passenger Motor Vehicle Operators

Abstract: The collection of crash data that support the establishment and enforcement of motor vehicle regulations that reduce the severity of injury and property damage caused by motor vehicle crashes is authorized under the National Traffic and Motor Vehicle Safety Act of 1966 (Public Law 89-563, Title 1, Sec. 106, 108, and 112). The National Automotive Sampling System (NASS) Crashworthiness Data System (CDS) of the National Highway Traffic Safety Administration investigates high severity crashes. Once a crash has been selected for investigation, researchers locate, visit, measure, and photograph the crash scene; locate, inspect, and photograph vehicles; conduct a telephone or personal interview with the involved individuals or surrogate; and obtain and record injury information received from various medical data sources. NASS CDS data are used to describe and analyze circumstances, mechanisms, and consequences of high severity motor vehicle crashes in the United States. The collection of interview data aids in this effort.

Estimated Annual Burden: 5,605 hours

Number of respondents: 9,450

Issued on: May 14, 2012

Terry T. Shelton
Associate Administrator, National Center for Statistics and Analysis
