[Docket Number FRA-2012-0049]

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that by a document dated May 4, 2012, Union Pacific Railroad (UP) has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR Part 235. FRA assigned the petition Docket Number FRA-2012-0049.

UP seeks relief from the requirements of 49 CFR Section 235.5 to expedite successful installation of Positive Train Control (PTC), mandated by the Rail Safety Improvement Act of 2008. UP will be updating first-generation, nonmicroprocessor-based coded track circuitry; eliminating certain searchlight signal mechanisms; and relocating some signals or making other changes that may require submission of an application and that have not been previously addressed. In requesting this waiver, UP proposes to perform minimal modifications to existing signal systems, while maintaining compliance with 49 CFR Part 236, in the same manner and process as provided for under 49 CFR Section 235.7(c)(24)(vi). This relief will allow for expedited beneficial modification of existing signal systems in preparation for the installation of PTC, and it

would reduce the administrative workload for both FRA and UP. Additionally, this relief would reduce the approval delay, while still providing FRA review and oversight of the proposed changes in the same manner as pole line elimination projects.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue, S.E., W12-140, Washington, D.C. 20590.
