SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a current information collection.

The Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) authorizes the Gulf of Mexico Fishery Management Council (Council) to prepare and amend fishery management plans for any fishery in waters under its jurisdiction. National Marine Fisheries Service (NMFS) manages the shrimp fishery in the waters of the Gulf of Mexico under the Shrimp Fishery Management Plan (FMP). The regulations for the Gulf Shrimp Vessel and Gear Characterization Form may be found at 50 CFR 622.5(a)(1)(iii)(C).

Owners or operators of vessels applying for or renewing a commercial vessel moratorium permit for Gulf shrimp must complete an annual Gulf Shrimp Vessel and Gear Characterization Form. The form will be provided by NMFS at the time of permit application and renewal. Compliance with this reporting requirement is required for permit issuance and renewal.

Through this form, NMFS is collecting census-level information on fishing vessel and gear characteristics in the Gulf of Mexico Exclusive Economic Zone (EEZ) shrimp fishery to conduct analyses that will improve fishery management decision-making in

this fishery; ensure that national goals, objectives, and requirements of the Magnuson-Stevens Act, National Environmental Policy Act (NEPA), Regulatory Flexibility Act (RFA), Endangered Species Act (ESA), and Executive Order (E.O.) 12866 are met; and quantify achievement of the performance measures in the NMFS' Operating Plans. This information is vital in assessing the economic, social, and environmental effects of fishery management decisions and regulations on individual shrimp fishing enterprises, fishing communities, and the nation as a whole.

The burden estimates for this information collection have changed due to adjustments. Currently, there are approximately 1,563 permitted vessels in the Gulf shrimp fishery – fewer vessels than in the previous renewal.

II. Method of Collection

Respondents are mailed hard copies of the form. The forms must be completed and mailed back to NMFS before their permits expire.
