#### **SUPPLEMENTARY INFORMATION:**

On March 27, 2012, the U.S. Department of Energy (DOE) published in the Federal Register a Notice of Proposed Rulemaking (NOPR) that would establish energy conservation standards for battery chargers and amend those that currently apply to Class A external power supplies (EPSs). (77 FR 18478) That notice also proposed to establish standards for non-Class A EPSs and possible labeling requirements for battery chargers and EPSs. The comment period for this NOPR closed on May 29, 2012.

Recently, after the closing of the comment period, DOE has received comments on this rulemaking from interested parties. These comments submit additional

information for DOE to consider as part of its evaluation of potential standards for battery chargers and EPSs. In order to consider comments previously submitted after the close of the earlier comment period and to allow interested parties to submit comments on the NOPR, DOE has determined that a re-opening of the comment period in this rulemaking is appropriate and is hereby doing so. DOE will consider any comments received between March 27, 2012 and **[INSERT DATE 15 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER]** to be timely submitted.

### **Further Information on Submitting Comments**

Under 10 CFR part 1004.11, any person submitting information that he or she believes to be confidential and exempt by law from public disclosure should submit two copies: one copy of the document including all the information believed to be confidential, and one copy of the document with the information believed to be confidential deleted. DOE will make its own determination about the confidential status of the information and treat it according to its determination.

Factors of interest to DOE when evaluating requests to treat submitted information as confidential include (1) a description of the items, (2) whether and why such items are customarily treated as confidential within the industry, (3) whether the information is generally known by or available from other sources, (4) whether the information has previously been made available to others without obligation concerning its confidentiality, (5) an explanation of the competitive injury to the submitting person which would result from public disclosure, (6) when such information might lose its

confidential character due to the passage of time, and (7) why disclosure of the information would be contrary to the public interest.

Issued in Washington, DC on June 25, 2012.
