SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 et seq.), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 et seq.), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222-226).

The purpose of the proposed research is to study: (1) presence/absence of marine mammals in U.S. Naval exercise, proposed energy and construction areas; (2) movement patterns of marine mammal species most at risk; and (3) population structure based on a variety of parameters for marine mammals occupying waters shared with the U.S. Navy, renewable energy industry, and pier-based industries requiring construction activities. All species of cetaceans and pinnipeds would be harassed during vessel and aerial surveys, including photo-identification. Cetacean species would be harassed during underwater photography. Surveys would be conducted year-round in all U.S. and international waters in the Pacific Ocean (including Alaska, Washington, Oregon, California, Hawaii, Guam, Marianas Islands, and other U.S. territories) and Atlantic Ocean (including the Gulf of Mexico, western North Atlantic, Caribbean Sea, and Sargasso Seas). The permit would be valid for five years.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the Federal Register, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.
