Part 63 of Title 47 of the Code of Federal Regulations (CFR) implements Section 214. Part 63

also implements provisions of the Cable Communications Policy Act of 1984 pertaining to video which was approved under this OMB Control Number 3060-0149. **Nature and Extent of Confidentiality:** To implement section 222 of the Communications Act of 1934, as amended, the Commission's rules impose a general duty on carriers to protect the privacy of customer proprietary network information (CPNI) and carrier proprietary information from unauthorized disclosure. See 47 CFR section 64.2001. The Commission additionally has clarified that the Commission's rules contemplate that incumbent Local Exchange Carriers (LECs) and other owners or controllers of 911 or E911 infrastructure will acquire information regarding interconnected VoIP providers and their customers for use in the provision of emergency services. We fully expect that these entities will use the information only for the provision of E911 services. To be clear, no entity may use customer information obtained as a result of the provision of 911 or E911 services for marketing purposes.

**Needs and Uses:** The Commission is seeking Office of Management and Budget (OMB) approval for an extension of this information collection (no change in the reporting and/or third party disclosure requirement). The Commission will submit this information collection after this 60 day comment period.

Commission rules require that owners or controllers of a 911 or enhanced 911 (E911) capability to make that capability available to a requesting interconnected VoIP provider in certain circumstances. This requirement involves the collection and disclosure to emergency services personnel of customers' location information. In a previous action, the Commission required

interconnected VoIP providers to collect certain location information from their customers and disclose it to the entities that own or control an Automatic Location Information (ALI) database.

Federal Communications Commission.
