Abstract: The eBenefits portal, a joint project between the VA and DoD, is intended to serve as a single point of entry for benefits information. Users include members of the armed forces, veterans, wounded warriors, family members, delegates, and caregivers. Users wishing to access the full functionality of the eBenefits portal will register for a single sign-on credential that will ultimately be shared by other VA and DoD portals. The eBenefits portal allows authenticated users to create profiles for themselves so they can see a customized view of their homepage, receive personalized alerts, view a calendar of appointments, view content related to their benefits, and opt into other individualized features. Profiles will initially be populated with data from the existing Defense Enrollment Eligibility Reporting database, but will also offer users the option to indicate preferences and individual details that will enable the portal to deliver personalized information.
