SUPPLEMENTARY INFORMATION:

Title: 2013 Census of Aquaculture.

OMB Control Number: 0535 - 0237

Type of Request: Statement to Seek Reinstatement of an Information Collection:

ABSTRACT: The 2013 Census of Aquaculture will include all operations in each State that produced and sold \$1,000 or more of aquaculture or aquaculture products during 2013. The aquaculture census will provide data on the number of farms, acreage, method of production, production and sales by aquaculture species, and sales outlets. Census data are used by the farmers, their representatives, the government, and many other groups of people concerned with the aquaculture industry. The census will provide a comprehensive inventory of aquaculture farms and their production. Results from the census will be used to evaluate new programs, disburse Federal funds, analyze market trends, and help determine the economic impact aquaculture has on the economy.

The aquaculture census will provide the only source of dependable, comparable data by State.

Authority: The census of agriculture and subsequent follow-on censuses are required by law under the “Census of Agriculture Act of 1997,” Pub. L. No. 105-113, 7 U.S.C. 2204(g). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995, Pub. L. 104-13 (44 U.S.C. 3501, et seq.) and Office of Management and Budget regulations at 5 CFR part 1320.

NASS also complies with OMB Implementation Guidance, “Implementation Guidance for Title V of the E-Government Act, Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA),” *Federal Register*, Vol. 72, No. 115, June 15, 2007, p. 33362. The law guarantees farm operators that their individual information will be kept confidential. NASS uses the information only for statistical purposes and publishes only tabulated total data.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 35 minutes per positive response, 10 minutes per screen-out, and 2 minutes per refusal.

Respondents: Farmers and Farm Managers.

Estimated Number of Respondents: 11,500.

Estimated Total Annual Burden on Respondents: 11,000 hours.

Copies of this information collection and related instructions can be obtained without charge from the NASS Clearance Officer, at (202) 720-2248.

COMMENTS: Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, technological or other forms of information technology collection methods.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, D.C., March 12, 2013.

Joseph T. Reilly,
Associate Administrator.
