**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

This request is for revision and extension of a current information collection. Under the Magnuson-Stevens Fishery Conservation and Management Act, 16 U.S.C. 1801 *et seq.*, permits are required for persons to participate in Federally-managed fisheries off the West Coast. There are three types of permits: basic fishery permits for Highly Migratory Species (HMS), limited entry permits for Coastal Pelagic Species (CPS) and experimental fishing permits (EFPs). Appeals and certain waiver requests may also be submitted. Transfer applications may also be required.

The permit application forms provide basic information about permit holders and the vessels and gear being used. This information is important for understanding the nature of the fisheries and provides a link to participants. It also aids in enforcement of regulations. Minor modifications of the current HMS permit application will occur to simplify application questions.

**II. Method of Collection**

Forms are available on the internet; paper applications are also available and may be submitted by mail or FAX. In addition, an online submission option is expected to be available for Highly Migratory Species permits by April 30, 2013.
