## NUCLEAR REGULATORY COMMISSION

[NRC-2012-0270]

### Content Specifications and Shielding Evaluations for Type B Transportation Packages

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Regulatory issue summary; issuance.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) is issuing Regulatory Issue Summary (RIS) 2013-04, "Content Specifications and Shielding Evaluations for Type B Transportation Packages." This RIS clarifies the NRC's use of staff guidance in NUREG-1609, "Standard Review Plan for Transport Packages for Radioactive Material," for the review of content specifications and shielding evaluations included in the Certificates of Compliance (CoC) and safety analysis reports (SARs) for Type B transportation packages. The RIS does not impose any additional regulatory requirements on NRC licensees.

**ADDRESSES:** Please refer to Docket ID NRC-2012-0270 when contacting the NRC about the availability of information regarding this document. You may access information related to this document, which the NRC possesses and are publicly available, using any of the following methods:

- **Federal Rulemaking Web site:** Go to <http://www.regulations.gov> and search for Docket ID NRC-2012-0270. Address questions about NRC dockets to Carol Gallagher;

## **SUPPLEMENTARY INFORMATION:**

### **I. Background and Public Comments**

This RIS clarifies the U.S. Nuclear Regulatory Commission's (NRC's) use of staff guidance in NUREG-1609, "Standard Review Plan for Transport Packages for Radioactive Material," for the review of content specifications and shielding evaluations included in the CoC and safety analysis reports for Type B transportation packages under 10 CFR Part 71. This information will assist the NRC in the regulatory process and aid the addresses in developing thorough submittals.

The NRC issued this RIS as a draft for public comment on November 13, 2012 (77 FR 67678), for a 45-day comment period. The staff received three comment letters containing a total of 3 comments from Nuclear Information and Resource Service. The NRC staff considered all comments. The NRC staff's evaluation of the comments is publicly available in ADAMS under Accession No. ML13035A235. As a result of the comments received, the NRC did not make any changes to the final version of RIS 2013-04.

### **II. Backfitting and Issue Finality**

There are no backfitting or issue finality provisions in 10 CFR Part 71; therefore, these addresses – in their status as applicants for or holders of 10 CFR Part 71 CoCs – are not protected by any backfitting or issue finality requirements.

This RIS does not impose on the addresses in their status as licensees or holders of NRC regulatory approvals under 10 CFR Parts 50, 52, 70, 72, or 76 either backfitting (as defined in those parts) or actions which are inconsistent with the issue finality requirements in

10 CFR Part 52. Consequently, the NRC staff did not address the documentation requirements of the backfitting provisions or the issue finality provisions of those parts.

### **III. Congressional Review Act**

Under the Congressional Review Act of 1996, the NRC has determined that this action is not a major rule and has verified this determination with the Office of Information and Regulatory Affairs of OMB.

Dated at Rockville, Maryland, this 23rd day of April, 2013.

For the Nuclear Regulatory Commission.

Mark Lombard, Director,  
Division of Spent Fuel Storage and Transportation,  
Office of Nuclear Material Safety  
and Safeguards.
