Proposed Data Collections Submitted for
Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404-639-7570 or send comments to Ron Otten, 1600 Clifton Road, MS-D74, Atlanta, GA 30333 or send an email to omb@cdc.gov.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d)

ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Written comments should be received within 60 days of this notice.

Proposed Project

"So What? Telling a Compelling Story" Template - New - Office of Public Health Preparedness and Response (OPHPR), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Background: Stories are difficult to gather and track; therefore, OPHPR must use a creative method to collect relevant stories on the impacts of the Public Health Emergency Preparedness (PHEP) grant in state and local health departments and at the community level. Several resources and tools exist within CDC and partner organizations to share stories but the stories tend to be dated or already used in another capacity. OPHPR must be proactive in leveraging this template to collect new, timely anecdotes, described as "leads" in the rest of this notice, versus full stories, in order to describe the current successes and challenges public health officials face implementing the PHEP grant and associated activities.

CDC requests Office of Management and Budget (OMB) approval to collect information for three years.

Description: The storytelling template is a single page, double-sided guide for storytellers, described as "sources" in the remainder of this notice. With this tool, developers intend to dramatically reduce the burden on respondents and employees who may otherwise engage in complete story development with each new event. In this manner, staff may tease out pertinent and timely leads for potential development at a later date based on the needs of leadership. Development of a complete story from this template will occur with a small percentage of the leads.

The text specifically requested is the source's name, telephone number, email address, organization, job title, the topic of the compelling story, a headline, and up to three key bullet points. The intent of this template is to guide the development of bullets and headlines describing successes, impacts, and other funding-related activities.

The goals of these leads are shaped by four topics:

1. Showcasing the nature of the preparedness and response challenge: Something observed at ground level that clearly illustrates why preparedness and response work is necessary.

2. Illustrating the public health contribution: Examples that prove public health preparedness and response not only makes a difference, but also describe the unique approach public health brings to emergency response.

3. Supporting the evidence-base: Examples that compliment qualitative research on evidence based interventions.

4. Demonstrating return on investment: Leads describing awareness of how funds are used and demonstrating fiscal responsibility and transparency.

OPHPR representatives intend to collect story leads from a variety of sources including CDC Field Staff, state health officers, local health department directors, preparedness planners, non-public health preparedness and response partners, the public and volunteer group members.

The developers plan to leverage existing communications channels if the leads are used or developed into more lengthy stories. Just as stories are used currently, leads from this template will be potentially used in congressional inquiries, leadership presentations, annual reports, and CDC OPHPR web sites.

There are no costs to respondents other than their time.

Estimated Annualized Burden Hours

Type of Respondents	Form Name	No. of Respondents	No. of Responses per Respondent	Avg. Burden per Response (in hrs.)	Total Burden (in hrs.)

CDC Field Staff, state health officers, local health department directors, preparedness planners, non-public health preparedness and response partners, the public and volunteer group members	"So What? Telling a Compelling Story"	100	1	30/60	50
CDC Field Staff, state health officers, local health department directors, preparedness planners, non-public health preparedness and response partners, the public and volunteer group members	So What? Telling a Compelling Story follow-up questions	30	1	1.5	45
				Total	95
