DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2013-0273; Airspace Docket No. 13-ASW-9]

Proposed Amendment of Class D and Class E Airspace; San Marcos, TX

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend Class D and Class E airspace at San Marcos, TX. Additional controlled airspace is necessary to accommodate new Standard Instrument Approach Procedures (SIAP) at San Marcos Municipal Airport and the decommissioning of the Garys Locator Outer Marker (LOM). The FAA is taking this action to enhance the safety and management of Instrument Flight Rules (IFR) operations for SIAPs at the airport. Adjustments to the geographic coordinates also would be made.

DATES: Comments must be received on or before **[INSERT 45 DAYS FROM THE DATE OF PUBLICATION IN THE FEDERAL REGISTER]**.

ADDRESSES: Send comments on this proposal to the U.S. Department of Transportation, Docket Operations, 1200 New Jersey Avenue SE, West Building Ground Floor, Room W12-140, Washington, DC 20590-0001. You must identify the docket number FAA-2013-0273/Airspace Docket No. 13-ASW-9, at the beginning of your comments. You may also submit comments through the Internet at <http://www.regulations.gov>. You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office

between 9:00 a.m. and 5:00 p.m., Monday through Friday, except Federal holidays. The Docket Office (telephone 1-800-647-5527), is on the ground floor of the building at the above address.

FOR FURTHER INFORMATION CONTACT: Scott Enander, Central Service Center, Operations Support Group, Federal Aviation Administration, Southwest Region, 2601 Meacham Blvd, Fort Worth, TX 76137; telephone: (817) 321-7716.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2013-0273/Airspace Docket No. 13-ASW-9." The postcard will be date/time stamped and returned to the commenter.

Availability of NPRMs

An electronic copy of this document may be downloaded through the Internet at <http://www.regulations.gov>. Recently published rulemaking documents can also be

accessed through the FAA's web page at

http://www.faa.gov/airports_airtraffic/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received and any final disposition in person in the Dockets Office (see "ADDRESSES" section for address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except Federal holidays. An informal docket may also be examined during normal business hours at the office of the Central Service Center, 2601 Meacham Blvd, Fort Worth, TX 76137.

Persons interested in being placed on a mailing list for future NPRMs should contact the FAA's Office of Rulemaking (202) 267-9677, to request a copy of Advisory Circular No. 11-2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

The Proposal

This action proposes to amend Title 14, Code of Federal Regulations (14 CFR), Part 71 by amending Class D airspace and Class E airspace extending upward from 700 feet above the surface to accommodate new standard instrument approach procedures and the decommissioning of the Garys LOM at San Marcos Municipal Airport, San Marcos, TX. Accordingly, small segments of Class D airspace would extend west and north from the current 4.2-mile radius of the airport to 11.8 miles north of the airport, and small segments of Class E airspace would extend west, east, southeast and south of the 6.7-mile radius of the airport to retain the safety and management of IFR aircraft in Class D and Class E airspace to/from the en route environment. Geographic coordinates for San

Marcos Municipal Airport and Lockhart Municipal Airport would also be updated to coincide with the FAA's aeronautical database.

Class D airspace areas are published in Paragraph 5000, and Class E airspace areas in Paragraph 6005 of FAA Order 7400.9W, dated August 8, 2012 and effective September 15, 2012, which is incorporated by reference in 14 CFR 71.1. The Class D and Class E airspace designations listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of

aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend controlled airspace at San Marcos Municipal Airport, San Marcos, TX.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1E, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (Air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR Part 71 as follows:

PART 71--DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389.

§71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of FAA Order 7400.9W, Airspace Designations and Reporting Points, dated August 8, 2012, and effective September 15, 2012, is amended as follows:

Paragraph 5000 Class D Airspace

* * * * *

ASW TX D San Marcos, TX [Amended]

San Marcos Municipal Airport, TX

(lat. 29°53'34"N., long. 97°51'47"W.)

That airspace extending upward from the surface to and including 3,100 feet MSL within a 4.2-mile radius of San Marcos Municipal Airport, and within 1 mile each side of the 313° bearing from the airport extending from the 4.2-mile radius to 5 miles northwest of the airport, and within 1 mile each side of the 268° bearing from the airport extending from the 4.2-mile radius to 4.4 miles west of the airport, and within 1 mile each side of the 358° bearing from the airport extending from the 4.2-mile radius to 4.4 miles north of the airport. This Class D airspace area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective dates and times will thereafter be continually published in the Airport/Facility Directory.

Paragraph 6005: Class E Airspace areas extending upward from 700 feet or more above the surface of the earth.

* * * * *

ASW TX E5 San Marcos, TX [Amended]

San Marcos Municipal Airport, TX

(lat. 29°53'34"N., long. 97°51'47"W.)

Lockhart Municipal Airport, TX

(lat. 29°51'01"N., long. 97°40'21"W.)

That airspace extending upward from 700 feet above the surface within a 6.7-mile radius of San Marcos Municipal Airport, and within 2 miles each side of the 268° bearing from the airport extending from the 6.7-mile radius to 13.1 miles west of the airport, and within 2 miles each side of the 313° bearing from the airport extending from the 6.7-mile radius to 11.1 miles northwest of the airport, and within 2 miles each side of the 088° bearing from the airport extending from the 6.7-mile radius to 10.4 miles east of the airport, and within 2 miles each side of the 133° bearing from the airport extending from the 6.7-mile radius to 9.6 miles southeast of the airport, and within 2 miles each side of the 178° bearing from the airport extending from the 6.7-mile radius to 10.4 miles south of the airport, and within a 6.3-mile radius of Lockhart Municipal Airport.

Issued in Fort Worth, TX, on May 22, 2013.
