The information sought in this information collection is needed to enable the FCC to ensure that commercial service providers have an accurate inventory of E911 PSAPs.

In order to populate the database with accurate information, the Commission periodically sends out letters to state officials requesting specific data:

- (1) the number and location of the PSAP;
- (2) the contact information for each PSAP;
- (3) an assessment of each PSAPs state of readiness to accept wireless E911 location information; and

(4) a statement of whether each PSAP has requested Phase I and/or Phase II E911 service.

The Commission's Public Safety and Homeland Security Bureau seeks the information to verify the accuracy of the information in the PSAP database by obtaining information for data elements that it has recently found to be missing or to have been accurately include in the initial PSAP database supplied to the Commission.
