**Notice of Application for Approval of Discontinuance or  
Modification of a Railroad Signal System**

In accordance with part 235 of Title 49 Code of Federal Regulations and 49 U.S.C. 20502(a), this document provides the public notice that by a document dated September 26, 2013, Norfolk Southern Corporation (NS) and Bay Coast Railroad (BCR) jointly petitioned the Federal Railroad Administration (FRA) seeking approval for the discontinuance or modification of a signal system. FRA assigned the petition Docket Number FRA-2013-0114.

NS and BCR seek approval of the proposed modification of the Coleman Place Interlocking, Milepost (MP) A1.4, Sewells Point Branch, Virginia Division, Norfolk, VA. The Coleman Place Interlocking will be redesigned and renewed with electronic control equipment and new signals arranged to the existing track configuration. Due to previous removal of the diamond crossing at the interlocking, the westbound home signal and the start of traffic control territory will move west approximately 1,000 feet. The existing No. 2 power-crossover switch will be converted to hand operation.

The reason given for the proposed changes is that the need for the power-crossover switch no longer exists with the removal of the diamond crossing.
