Borough of Weatherly

Project No. 14560-000

NOTICE OF PRELIMINARY PERMIT APPLICATION ACCEPTED FOR FILING
AND SOLICITING COMMENTS, MOTIONS TO INTERVENE, AND COMPETING
APPLICATIONS

On November 4, 2013, the Borough of Weatherly (Borough) filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Francis E. Walter Dam and Reservoir (Francis Walter Project or project) to be located at the U.S. Army Corps of Engineers' (Corps) Francis E. Walter Dam on the Lehigh River in Luzerne County, Pennsylvania. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The Borough's permit application is filed in competition with Mid-Atlantic Hydro, LLC's proposed Francis E. Walter Hydroelectric Project No. 14549-000, which was publicly noticed September 25, 2013. The deadline for filing competing applications was November 24, 2013. The Borough's competing permit application is timely filed.

The proposed project would consist of the following: (1) a concrete reinforced powerhouse to be located near the outlet structure of the existing penstock; (2) a substation to be located outside the powerhouse on the west side; (3) two unequal-sized turbine-generators for a total installed capacity of between 9.0 megawatts (MW) and 11.5 MW; (4) a proposed 0.5-mile-long, 12.47-kilovolt transmission line interconnecting with an existing Pennsylvania Power and Light transmission line; and (5) appurtenant facilities. The estimated annual generation of the project would range between 13 gigawatt-hours (GWh) and 26 GWh.
