14 CFR Part 97

[Docket No. [30941](#); Amdt. No. [3575](#)]

Standard Instrument Approach Procedures, and Takeoff Minimums and Obstacle Departure Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final Rule.

SUMMARY: This rule establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) and associated Takeoff Minimums and Obstacle Departure Procedures for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, adding new obstacles, or changing air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: This rule is effective [INSERT DATE OF PUBLICATION IN THE FEDERAL REGISTER]. The compliance date for each SIAP, associated Takeoff Minimums, and ODP is specified in the amendatory provisions.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the

Federal Register as of [INSERT DATE OF PUBLICATION IN THE  
FEDERAL REGISTER].

ADDRESSES: Availability of matters incorporated by reference in  
the amendment is as follows:

SUPPLEMENTARY INFORMATION: This rule amends Title 14 of the Code of  
Federal Regulations, Part 97 (14 CFR part 97), by  
establishing, amending, suspending, or revoking SIAPS, Takeoff  
Minimums and/or ODPS. The complete regulators description of  
each SIAP and its associated Takeoff Minimums or ODP for an  
identified airport is listed on FAA form documents which are  
incorporated by reference in this amendment under 5 U.S.C.  
552(a), 1 CFR part 51, and 14 CFR part 97.20. The applicable FAA  
Forms are FAA Forms 8260-3, 8260-4, 8260-5, 8260-15A, and 8260-15B  
when required by an entry on 8260-15A.

The large number of SIAPs, Takeoff Minimums and ODPs, in  
addition to their complex nature and the need for a special format  
make publication in the Federal Register expensive and impractical.  
Furthermore, airmen do not use the regulatory text of the SIAPs,  
Takeoff Minimums or ODPs, but instead refer to their depiction on  
charts printed by publishers of aeronautical materials. The  
advantages of incorporation by reference are realized and  
publication of the complete description of each  
SIAP, Takeoff Minimums and ODP listed on FAA forms is unnecessary.  
This amendment provides the affected CFR sections and specifies the  
types of SIAPs and the effective dates of the,  
associated Takeoff Minimums and ODPs. This amendment also  
identifies the airport and its location, the procedure, and the  
amendment number.

## THE RULE

This amendment to 14 CFR part 97 is effective upon publication of each separate SIAP, Takeoff Minimums and ODP as contained in the transmittal. Some SIAP and Takeoff Minimums and textual ODP amendments may have been issued previously by the FAA in a Flight Data Center (FDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP and Takeoff Minimums and ODP amendments may require making them effective in less than 30 days. For the remaining SIAPS and Takeoff Minimums and ODPS, an effective date at least 30 days after publication is provided.

Further, the SIAPs and Takeoff Minimums and ODPS contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Procedures (TERPS). In developing these SIAPS and Takeoff Minimums and ODPS, the TERPS criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs, Takeoff Minimums and ODPS, and safety in air commerce, I find that notice and public procedures before adopting these SIAPS, Takeoff Minimums and ODPS are impracticable and contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

## CONCLUSION

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore--(1) is not a "significant regulatory action" under Executive Order 12866;(2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26,1979) ; and (3)does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
