DOL_PRA_PUBLIC@dol.gov.

AUTHORITY: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA
authorization for the recordkeeping requirements related to the hydrostatic testing
provision of the standard on portable fire extinguishers codified in regulations 20 CFR
1910.157(f)(16). More specifically, as evidence of completing the test, it is mandatory
for the person performing the test to record his or her name, the date of the test, and the
identifier of the extinguisher tested. A covered employer must maintain the record in
accordance with timeframes set forth in the regulation. The Occupational Safety and
Health Act authorizes this information collection. See 29 U.S.C. 657.

This information collection is subject to the PRA. A Federal agency generally
cannot conduct or sponsor a collection of information, and the public is generally not
required to respond to an information collection, unless it is approved by the OMB under
the PRA and displays a currently valid OMB Control Number. In addition,

notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1218-0218.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on March 31, 2014. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the Federal Register on November 25, 2013 (78 FR 70324).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the ADDRESSES section within 30 days of publication of this notice in the Federal Register. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1218-0218. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- Enhance the quality, utility, and clarity of the information to be collected;
- and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
