

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

33 CFR Part 334

St. Johns River, U.S. Coast Guard Station Mayport, Sector Jacksonville, Florida;

Restricted Area

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Notice of proposed rulemaking and request for comments.

SUMMARY: The U.S. Army Corps of Engineers (Corps) is proposing to amend the existing regulations to establish a new restricted area in the waters surrounding U.S. Coast Guard Sector Jacksonville facilities at Station Mayport, Jacksonville, Florida (Station Mayport). Station Mayport is situated on the south side of the St. Johns River which, as the primary federal navigable channel entering the Port of Jacksonville, is heavily transited by commercial and recreational vessels. This United States Coast Guard (USCG) facility maintains a high operational tempo for both routine and emergency operations. The amendment to the existing regulations is necessary to enhance the USCG's ability to counter postulated threats against their personnel, equipment, cutters, and facilities by providing a stand-off buffer encompassing the waters immediately contiguous to the Station Mayport. The amendment will also serve to protect the general public from injury or property damage during routine and emergency USCG operations and provide an explosive safety arc buffer during periodic transfer of ammunitions between units, including cutters.

SUPPLEMENTARY INFORMATION: Pursuant to its authorities in Section 7 of the Rivers and Harbors Act of 1917 (40 Stat 266; 33 U.S.C. 1) and Chapter XIX of the Army Appropriations Act of 1919 (40 Stat 892; 33 U.S.C. 3), the Corps is proposing to amend the regulations at 33 CFR part 334 by establishing a new restricted area in the waters of the St. Johns River adjacent to Station Mayport. The proposed amendment will allow the Commanding Officer, U.S. Coast Guard Station Mayport to restrict passage of persons,

watercraft, and vessels in waters contiguous to this Command, thereby providing greater security to the personnel, equipment, cutters and facilities housed at the site.

#### Procedural Requirements

a. Review Under Executive Order 12866. The proposed rule is issued with respect to a military function of the Department of Defense and the provisions of Executive Order 12866 do not apply.

b. Review Under the Regulatory Flexibility Act. The proposed rule has been reviewed under the Regulatory Flexibility Act (Public Law 96-354) which requires the preparation of a regulatory flexibility analysis for any regulation that will have a significant economic impact on a substantial number of small entities (i.e., small businesses and small governments). Unless information is obtained to the contrary during the comment period, the Corps expects that the proposed rule would have practically no economic impact on the public, or result in no anticipated navigational hazard or interference with existing waterway traffic. This proposed rule, if adopted, will have no significant economic impact on small entities.

c. Review Under the National Environmental Policy Act. Due to the administrative nature of this action and because there is no intended change in the use of the area, the Corps expects that this regulation, if adopted, will not have a significant impact on the quality of the human environment and, therefore, preparation of an environmental impact statement will not be required. An environmental assessment will be prepared after the public notice period is closed and all comments have been received and considered.

d. Unfunded Mandates Act. This proposed rule does not contain a Federal mandate that may result in expenditures of \$100 million or more for State, local, and Tribal governments, in the aggregate, or the private sector in any one year. Therefore, this proposed rule is not subject to the requirements of Sections 202 and 205 of the Unfunded Mandates Reform Act (UMRA). The proposed rule contains no regulatory requirements that might significantly or uniquely affect small governments. Therefore, the proposed rule is not subject to the requirements of Section 203 of UMRA.
