BILLING CODE: 3410-34-P

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. APHIS-2014-0060]

Notice of Request for Revision to and Extension of Approval of an Information Collection;
Importation of Fresh Pitaya Fruit from Central America into the Continental United States

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Revision to and extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request a revision to and extension of approval of an information collection associated with the regulations for the importation of fresh pitaya fruit from Central America into the continental United States.

DATES: We will consider all comments that we receive on or before [INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER].

ADDRESSES: You may submit comments by either of the following methods:

- Federal eRulemaking Portal: Go to <http://www.regulations.gov/#!docketDetail;D=APHIS-2014-0060>.
- Postal Mail/Commercial Delivery: Send your comment to Docket No. APHIS-2014-0060, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road Unit 118, Riverdale, MD 20737-1238.

Supporting documents and any comments we receive on this docket may be viewed at <http://www.regulations.gov/#!docketDetail;D=APHIS-2014-0060> or in our reading room, which

is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799-7039 before coming.

FOR FURTHER INFORMATION CONTACT: For information on fresh pitaya fruit from Central America into the continental United States, contact Mr. David Lamb, Senior Regulatory Policy Specialist, RCC, RPM, PHP, PPQ, APHIS, 4700 River Road Unit 133, Riverdale, MD 20737; (301) 851-2103. For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS' Information Collection Coordinator, at (301) 851-2908.

SUPPLEMENTARY INFORMATION:

Title: Importation of Fresh Pitaya Fruit From Central America Into the Continental United States.

OMB Control Number: 0579-0378.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 et seq.) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. As authorized by the PPA, the Animal and Plant Health Inspection Service (APHIS) regulates the importation of certain fruits and vegetables in accordance with the regulations in "Subpart—Fruits and Vegetables" (7 CFR 319.56-1 through 319.56-69).

Under these regulations, fresh pitaya from Central America may be imported into the continental United States under certain conditions, as listed in 7 CFR 319.56-55, to prevent the

introduction of plant pests into the United States. The regulations require information collection activities, including production site certification and registration, review and maintenance of records, packinghouse registration, a workplan, records of fruit fly detections and checking of traps, identification of places of production on shipping documents, box marking, and a phytosanitary certificate with an additional declaration.

When comparing the regulations to the information collection activities that were previously approved, we found that production site registration and box markings were omitted from the previous collection. By adding these two activities to this information collection, the estimated total annual burden on respondents has increased from 122 hours to 284 hours, and the estimated annual number of responses has increased from 141 to 100,148. However, the estimate of burden has decreased from 0.8652 hours per response to 0.002 hours per response.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.002 hours per response.

Respondents: Shippers and producers of fresh pitaya and the national plant protection organizations in Central America.

Estimated annual number of respondents: 27.

Estimated annual number of responses per respondent: 3,709.

Estimated annual number of responses: 100,148.

Estimated total annual burden on respondents: 284 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 8th day of August 2014 .

Kevin Shea

Administrator, Animal and Plant Health Inspection Service.
