Animal & Plant Health Inspection Service

TITLE: Gypsy Moth Identification Worksheet

OMB CONTROL NUMBER: 0579-0104

SUMMARY OF COLLECTION: Under the Plant Protection Act (7 U.S.C. 7701 – et seq.), the Secretary of Agriculture either independently or in cooperation with the States, is authorized to carry out operations or measures to detect, eradicate, suppress, control, prevent, or retard the spread of plant pest new to the United States or not widely distributed throughout the United States. The Plant Protection and Quarantine (PPQ), a program within the Animal and Plant Health Inspection Service (APHIS), is responsible for implementing the intent of this Act, and does so through the enforcement of its Domestic Quarantine Regulations contained in Title 7 of the Code of Federal Regulations (CFR) Part 301. The European gypsy moth is one of the most destructive pests of fruit and ornamental trees as well as hardwood forests. The Asian gypsy moth is an exotic strain of gypsy moth that is closely related to the European variety already established in the U.S. Due to significant behavioral differences, this strain is considered to pose an even greater threat to trees and forested areas. In order to determine the presence and extent of a European gypsy moth or an Asian gypsy moth infestation, APHIS sets traps in high-risk areas to collect specimens.

NEED AND USE OF THE INFORMATION: APHIS will collect information from the Gypsy Moth Identification Worksheet, PPQ Form 305, to identify and track specific specimens that are sent to the Otis Development Center for identification tests based on DNA analysis. This information collected is vital to APHIS' ability to monitor, detect, and eradicate gypsy moth infestations and the worksheet is completed only when traps are found to contain specimens. Information on the worksheet includes the name of the submitter, the submitter's agency, the date collected, the trap number, the trap's location (including the nearest port of entry), the

number of specimens in the trap, and the date the specimen was sent to the laboratory.

APHIS will also use the Your Move Gypsy Moth Free Brochure-Program Aid No. 2147 to collect information on required inspection of outdoor household articles that are to be moved from a gypsy moth quarantined area to a non-quarantined area to ensure that they are free of all life stages of gypsy moth.
