SUPPLEMENTARY INFORMATION

I. Abstract

The United States Patent and Trademark Office (USPTO) designed and developed the Patents Ombudsman Program in response to customer feedback that the prosecution of patent applications does not always proceed in accordance with established procedures. In some situations, the patent applicants, attorneys, and agents have felt that examination has stalled and their efforts to move their applications forward through the normal channels have not been effective. The objectives of the
Patents Ombudsman Program are: (1) to facilitate complaint-handling for pro se applicants and applicant’s representatives whose applications have stalled in the examination process; (2) to track complaints to ensure each is handled within ten business days; (3) to provide feedback and early warning alerts to USPTO management regarding training needs based on complaint trends; and (4) to build a database of frequently asked questions accessible to the public that give commonly seen problems and effective resolutions.

The USPTO Ombudsman survey is a key component of the process evaluation, providing a program monitoring system and identifying potential opportunities for program enhancement. This survey is being conducted by the USPTO’s Ombudsman Program and will be developed, administered, and summarized by USPTO personnel. A survey is the only way the USPTO can gain consistent, reliable, and representative information from the customers choosing to use the Ombudsman Program.

There are no statutes or regulations requiring the USPTO to conduct this usage and satisfaction measurement. The USPTO will use the survey instrument to implement Executive Order 12862 of September 11, 1993, Setting Customer Service Standards, published in the Federal Register on September 14, 1993 (Vol. 58, No. 176).
II. Method of Collection

Electronic email submission to the USPTO.

III. Data

OMB Number: 0651-New.

Form Number(s): No form numbers.

Type of Review: New collection.

Affected Public: Individuals or households; businesses or other for-profits; and not-for-profit institutions.

Estimated Number of Respondents: 1,100 responses per year. A final respondent pool from approximately 3,000 inquiries would likely be around 1,800 unique customers. Assuming a 60% response rate, 1,100 of the 1,800 unique users will respond which should ensure adequate representation across all Technology Centers.

Estimated Time Per Response: The USPTO estimates that it will take the public approximately 5 minutes (.083 hours) to submit the information in this collection, including the time to gather the necessary information, prepare the appropriate form or document, and submit the completed request to the USPTO.

Estimated Total Annual Respondent Burden Hours: 91.67 hours.

Estimated Total Annual Respondent Cost Burden: $29,608.33

The USPTO believes that both professionals and paraprofessionals will complete these surveys, at a rate of 75% of the current
professional rate of $389 per hour and 25% of the para-
professional rate of $125 per hour. The professional hourly
rate used for the calculation is the median rate for attorneys
in private firms as published in the 2013 AIPLA Economic Survey.
This report summarized the results of a survey with data on
hourly billing rates. The para-professional hourly rate comes
from 2013 report published by the National Association of Legal
Assistants.

The hourly rate for professionals, calculating 75% of $389,
totals $291.75, while the hourly rate for the para-
professionals, calculating 25% of $125, totals $31.25, for a
combined hourly rate of $323. The USPTO estimates that the
respondent cost burden for this collection will be $29,608.33
per year (1,100 responses * .083 hours * $323).
