Information Collection Request Title: Pregnancy Assistance Fund Feasibility and Design Study (FADS)

Abstract: The Office of Adolescent Health (OAH), U.S. Department of Health and Human Services (HHS) is requesting approval by OMB on a new collection. The Pregnancy Assistance Fund (PAF) evaluation will provide information about program design, implementation, and impacts through two core components: a rigorous assessment of program impacts and implementation, and a descriptive examination of program design. This proposed information collection request includes instruments related to the in-depth implementation study that complements the impact study. The data collected from these instruments will provide a detailed understanding of program implementation.

Need and Proposed Use of the Information: The data will serve two main purposes. First, the information will enable the study team to produce clear, detailed descriptions of each intervention that is evaluated and the counterfactual in each site. This documentation is critical for understanding the meaning of impact estimates. Second, the data will be used to assess fidelity of implementation and the quality of program delivery. This information is essential for determining whether the interventions were implemented well and whether the evaluation provided a good test of each site's intervention.

Likely Respondents: The 140 program administrators and case managers and 200 youth participants in 3 impact study sites.

Total Estimated Annualized Burden - Hours

Form Name	Number of Respondents	Number of Responses per Respondent	Average Burden per Response (in hours)	Total Burden Hours
Semi-structured interview	12	2	1	24
Staff focus group	17	1	1	17
Staff survey	47	1	.5	24
Program attendance and content coverage protocol	2	12	.5	12
Youth focus group	67	1	1.5	100.5
Total				177.5

OS specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency's functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.
