A 60-day Notice requesting public comment was published in the Federal Register on November 30th, 2014. This comment period ended January 29th, 2015. No public comments were received from this Notice.

Description: While previous evaluation efforts have confirmed CNCS’s impact on members and recipients of services such as increased education, skills, and civic participation, the current effort through the Social Network Study (SNS) will be the first evaluation of the collaboration and partnerships between ACSN grantees and
organizations within their geographic communities. The main goal of the SNS is to
gather through the Partnership and Collaboration (PAC) Survey an in-depth
understanding of how ACSN grantees engage community organizations and to learn
more about their relationships and interactions with other organizations within their
network. The PAC will also provide information about both the barriers that prevent
collaboration and interaction, as well as factors that could be utilized to overcome them.
These outcomes are an important step to developing a more vigorous civic infrastructure
and increasing capacity in the communities served by CNCS and its grantees. This study
will also help CNCS disseminate best practices about collaboration and partnerships to
other AmeriCorps programs. Information will be collected electronically via web
primarily and telephone and mail-in options will be provided only to those not responsive
to the web survey.
