SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for a new information collection.

The National Marine Fisheries Service (NMFS) proposes to collect economic and attitudinal data from reef fish dealers regarding the performance of the GOM Grouper-Tilefish IFQ Program five years after its implementation. These data will be used to estimate the effects of the GT-IFQ Program on these stakeholders for the five-year program review mandated by the Magnuson-Stevens Fishery Conservation and Management Act (U.S.C. 1801 *et seq*). The population targeted by the economic survey is all federally licensed dealers that participate in the GOM reef fish fishery. In addition, the information will be used to strengthen and improve fishery management decision-making, and satisfy legal mandates under Executive Order 12866, the Regulatory Flexibility Act, the Endangered Species Act, the National Environmental Policy Act and other pertinent statutes.

II. Method of Collection

The economic and attitudinal information sought will be collected via in-person and mail surveys.

III. Data
