B. Submitting Comments.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <http://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background.

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, "General Domestic Licenses for Byproduct Material." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a *Federal Register* notice with a 60-day comment period on this information collection on November 19, 2014, 79 FR 68917.

1. *The title of the information collection:* 10 CFR Part 31, "General Domestic Licenses for Byproduct Material."
2. *OMB approval number:* 3150-0016
3. *Type of submission:* Extension with burden revision
4. *The form number if applicable:* Not applicable

5. *How often the collection is required or requested:* Reports are submitted as events occur. General license registration requests may be submitted at any time. Changes to the information on the registration may be submitted as they occur.
6. *Who will be required or asked to respond:* Persons receiving, possessing, using, or transferring devices containing byproduct material.
7. *The estimated number of annual responses:* 138,429 (10,929 responses + 127,500 recordkeepers).
8. *The estimated number of annual respondents:* 10,929 (971 NRC licensee respondents + 9,958 Agreement State licensee responses).
9. *An estimate of the total number of hours needed annually to comply with the information collection requirement or request:* 36,186 hours (4,843 hours for NRC licensees + 31,343 hours for Agreement State licensees).

10. *Abstract:* Part 31 of Title 10 of the *Code of Federal Regulations* (10 CFR), establishes general licenses for the possession and use of byproduct material in certain devices. General licensees are required to keep testing records and submit event reports identified in Part 31, which assist the NRC in determining with reasonable assurance that devices are operated safely and without radiological hazard to users or the public.

Dated at Rockville, Maryland, this 7th day of April, 2015.

For the Nuclear Regulatory Commission.

Tremaine Donnell,
NRC Clearance Officer,
Office of Information Services.
