DETERMINATIONS TERMINATING INVESTIGATIONS OF PETITIONS FOR WORKER ADJUSTMENT ASSISTANCE

After notice of the petitions was published in the Federal Register and on the Department's website, as required by Section 221 of the Act (19 USC 2271), the Department initiated investigations of these petitions.

The following determinations terminating investigations were issued because the petitioner has requested that the petition be withdrawn.

85,724, Fiberoptic Lighting Inc., Grants Pass, Oregon.

85,854, Magnetation, Grand Rapids, Minnesota.

The following determinations terminating investigations were issued in cases where these petitions were not filed in accordance with the requirements of 29 C.F.R. 90.11. Every petition filed by workers must be signed by at least three individuals of the petitioning worker group. Petitioners separated more than one year prior to the date of the petition cannot be covered under a certification of a petition under Section 223(b), and therefore, may not be part of a petitioning worker group. For one or more of these reasons, these petitions were deemed invalid.

85,928, Dover Norris Company, Tulsa, Oklahoma.

The following determinations terminating investigations were issued because the petitioning groups of workers are covered by active certifications. Consequently, further investigation in these cases would serve no purpose since the petitioning group of workers cannot be covered by more than one certification at a time.
