## **SUPPLEMENTARY INFORMATION:**

### **Background**

The Idaho Roadless Rule permits the Chief of the Forest Service to modify Idaho Roadless Area boundaries based on changed circumstances or public need after providing public notice and a 45-day public comment period. Pursuant to 36 CFR 294.27(b), the Forest Service proposes to modify the West Mink Roadless Area boundary, located in the Caribou-Targhee National Forest, to allow for the relocation and expansion of the Gibson Jack trailhead.

The existing Gibson Jack trailhead outside of Pocatello, Idaho does not provide adequate parking to accommodate the trail's high level of use. Vehicles must park along the trailhead's access road on adjacent private lands. Expansion of the trailhead in its existing location is not feasible because of the presence of steep and erodible slopes. The West Mink Roadless Area surrounds the trailhead on three sides.

A flat bench approximately 700 feet west of the existing trailhead and inside the roadless area would provide adequate space to accommodate trailhead parking and for vehicles pulling trailers. Moving the trailhead to this location requires removing 11.4 acres from the roadless area and reconstructing approximately 700 feet of a closed Forest Service road that currently serves as a non-motorized trail.

The Forest Service also proposes to eliminate an 18.8-acre area (or “cherry stem”) that has been carved out of the same roadless area. This 18.8-acre area follows a closed Forest Service road which has since been converted to a motorized trail. The Forest Service will add these 18.8 acres to the Roadless Area and remove the previously mentioned 11.4 acres to accommodate the new trailhead, resulting in a net increase of 7.4 acres to the West Mink Roadless Area. The boundary modification would improve the area’s manageability for the Caribou-Targhee National Forest. The trailhead relocation would provide improved access and safety for trail users and meet current and projected recreation demand. A map of the proposed modifications is available at: <http://www.fs.usda.gov/detail/roadless/idahoroadlessrule/?cid=stelprdb5382399>.

The Forest Service prepared an environmental assessment to analyze the impacts of the trailhead relocation and roadless area boundary modifications. The Chief of the Forest Service is the responsible official for the boundary modification under the Idaho Roadless Rule. The Forest Supervisor, Caribou-Targhee National Forest, is the responsible official for the trailhead relocation project. The Forest Service will consider public comments on the proposed boundary modifications in coordination with the proposed trailhead relocation. The environmental assessment, finding of no significant impact, and draft decision notice for the trailhead relocation are available at the Caribou-

Targhee National Forest Supervisor's Office, 1405 Hollipark Drive, Idaho Falls, ID 83401 or on the Internet at: [www.fs.usda.gov/projects/ctnf/landmanagement/projects](http://www.fs.usda.gov/projects/ctnf/landmanagement/projects). The trailhead relocation project is subject to the objection process at 36 CFR Part 218 and 219. Information on filing an objection on the trailhead relocation project is available at the website above.
