Proposed Amendment of Class E Airspace for the following Missouri towns:

Chillicothe, MO; Cuba, MO; Farmington, MO; Lamar, MO; Mountain View, MO; Nevada, MO; and Poplar Bluff, MO

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUPPLEMENTARY INFORMATION:

Authority for this Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend controlled airspace at the Missouri airports listed in this NPRM.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those

comments a self-addressed, stamped postcard on which the following statement is made: “Comments to Docket No. FAA-2015-0842/Airspace Docket No. 15-ACE-2.” The postcard will be date/time stamped and returned to the commenter.

Availability and Summary of Documents Proposed for Incorporation by Reference

This document proposes to amend FAA Order 7400.9Y, Airspace Designations and Reporting Points, dated August 6, 2014, and effective September 15, 2014. FAA Order 7400.9Y is publicly available as listed in the ADDRESSES section of this

proposed rule. FAA Order 7400.9Y lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

This action proposes to amend Title 14, Code of Federal Regulations (14 CFR), Part 71 by modifying Class E airspace extending upward from 700 feet above the surface for standard instrument approach procedures (SIAP) at Chillicothe Municipal Airport, Chillicothe, MO; Cuba Municipal Airport, Cuba, MO; Farmington Regional Airport, Farmington, MO; Lamar Municipal Airport, Lamar, MO; Mountain View Airport, Mountain View, MO; Nevada Municipal Airport, Nevada, MO; and Poplar Bluff Municipal Airport, Poplar Bluff, MO. Also, Class E airspace extending upward from the surface would be amended at Farmington Regional Airport, Farmington, MO. Airspace reconfiguration is necessary due to the decommissioning of NDBs and/or cancellation of the NDB approach at each airport. Controlled airspace is necessary for the safety and management of IFR operations for SIAPs at the airports. Geographic coordinates also would be adjusted for Lamar Municipal Airport, Lamar, MO; Nevada Municipal Airport, Nevada, MO; and Poplar Bluff Municipal Airport, Poplar Bluff, MO, to coincide with the FAAs aeronautical database.

Class E airspace areas are published in Paragraph 6005 of FAA Order 7400.9Y, dated August 6, 2014, and effective September 15, 2014, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a “significant

regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1E, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.
