SUPPLEMENTARY INFORMATION: The FAA invites public comment on the request to release property at the Morgantown Municipal Airport under the provisions of Section 47125(a) of Title 49 U.S.C. On July 21, 2015, the FAA determined that the request to release property at the Morgantown Municipal Airport (MGW), WV, submitted by the City of Morgantown, Sponsor for the Morgantown Municipal Airport, met the procedural requirements.

The following is a brief overview of the request:

The Morgantown Municipal Airport is proposing the release of approximately 95.70 acres of fee simple release to permit the transfer of such Property to the Monongalia County Development Authority ("MCDA"). Thereafter, "MCDA" will construct, or cause the construction, and operate, or cause the operation, of a Business Park on the Property. The Property to which this request relates is not a vital part of, or necessary for, the Sponsor's operation and development of Morgantown Municipal Airport (MGW). Therefore, it has been determined by the Sponsor that the most productive use of the Property is commercial development subsequent to its transfer to the "MCDA". The development of the Property demonstrates that significant private investment can occur at MGW and shall serve to establish quality standards for future investments. The release and transfer of this property will allow the Sponsor to develop the roadway and utilities which will benefit this property, the hangar site, and the landside development site. This release will enhance the development of private aviation and commercial development of the east side of the airport.
