Hand Trucks and Certain Parts Thereof from the People’s Republic of China: Continuation of Antidumping Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce

DATE: Effective date: (Insert date of publication in the Federal Register.)

SUMMARY: As a result of the determinations by the Department of Commerce (the Department) and the International Trade Commission (ITC) that revocation of the antidumping duty order on hand trucks and certain parts thereof (hand trucks) from the People’s Republic of China (PRC) would likely lead to a continuation or recurrence of dumping and material injury to an industry in the United States, the Department is publishing a notice of continuation for this antidumping duty order.

SUPPLEMENTARY INFORMATION:

Background
On March 2, 2015, the Department initiated this sunset review on the antidumping duty order on hand trucks from the PRC, pursuant to section 751(c) and 752 of the Tariff Act of 1930, as amended (the Act). As a result of the review, the Department found that revocation of the antidumping order would likely lead to a continuation or recurrence of dumping, and therefore, notified the ITC of the magnitude of the dumping margins likely to prevail were the order to be revoked. On August 5, 2015, the ITC published its determination pursuant to section 751(c) and 752 of the Act that revocation of the antidumping duty order of hand trucks from the PRC would lead to a continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

Scope of the Order for Hand Trucks

The merchandise subject to this antidumping duty order consists of hand trucks manufactured from any material, whether assembled or unassembled, complete or incomplete, suitable for any use, and certain parts thereof, namely the vertical frame, the handling area and the projecting edges or toe plate, and any combination thereof.

A complete or fully assembled hand truck is a hand-propelled barrow consisting of a vertically disposed frame having a handle or more than one handle at or near the upper section of the vertical frame; at least two wheels at or near the lower section of the vertical frame; and a horizontal projecting edge or edges, or toe plate, perpendicular or angled to the vertical frame, at or near the lower section of the vertical frame. The projecting edge or edges, or toe plate, slides under a load for purposes of lifting and/or moving the load.

---

1 See Initiation of Five Year (“Sunset”) Review, 80 FR 11164 (March 2, 2015) (Sunset Initiation).
That the vertical frame can be converted from a vertical setting to a horizontal setting, then operated in that horizontal setting as a platform, is not a basis for exclusion of the hand truck from the scope of this petition. That the vertical frame, handling area, wheels, projecting edges or other parts of the hand truck can be collapsed or folded is not a basis for exclusion of the hand truck from the scope of the petition. That other wheels may be connected to the vertical frame, handling area, projecting edges, or other parts of the hand truck, in addition to the two or more wheels located at or near the lower section of the vertical frame, is not a basis for exclusion of the hand truck from the scope of the petition. Finally, that the hand truck may exhibit physical characteristics in addition to the vertical frame, the handling area, the projecting edges or toe plate, and the two wheels at or near the lower section of the vertical frame, is not a basis for exclusion of the hand truck from the scope of the petition.

Examples of names commonly used to reference hand trucks are hand truck, convertible hand truck, appliance hand truck, cylinder hand truck, bag truck, dolly, or hand trolley. They are typically imported under heading 8716.80.5010 of the Harmonized Tariff Schedule of the United States (HTSUS), although they may also be imported under heading 8716.80.5090. Specific parts of a hand truck, namely the vertical frame, the handling area and the projecting edges or toe plate, or any combination thereof, are typically imported under heading 8716.90.5060 of the HTSUS. Although the HTSUS subheadings are provided for convenience and customs purposes, the Department's written description of the scope is dispositive.

Excluded from the scope are small two-wheel or four-wheel utility carts specifically designed for carrying loads like personal bags or luggage in which the frame is made from telescoping tubular material measuring less than 5/8 inch in diameter; hand trucks that use motorized operations either to move the hand truck from one location to the next or to assist
in the lifting of items placed on the hand truck; vertical carriers designed specifically to transport golf bags; and wheels and tires used in the manufacture of hand trucks.

Excluded from the scope is a multifunction cart that combines, among others, the capabilities of a wheelbarrow and dolly. The product comprises a steel frame that can be converted from vertical to horizontal functionality, two wheels toward the lower end of the frame and two removable handles near the top. In addition to a foldable projection edge in its extended position, it includes a permanently attached steel tub or barrow. This product is currently available under proprietary trade names such as the “Aerocart.”

Continuation of the Order

As a result of the determinations by the Department and the ITC that revocation of this antidumping duty order would likely lead to a continuation or recurrence of dumping and material injury to an industry in the United States, pursuant to sections 751(c) and 751(d)(2) of the Act, the Department hereby orders the continuation of the antidumping duty order on hand trucks from the PRC. U.S. Customs and Border Protection will continue to collect cash deposits for estimated antidumping duties at the rates in effect at the time of entry for all imports of subject merchandise.

The effective date of the continuation of this order will be the date of publication in the Federal Register of this notice of continuation. Pursuant to section 751(c)(2) of the Act, the Department intends to initiate the next five-year review of this order not later than 30 days prior to the fifth anniversary of the effective date of continuation of the order.
This five-year (sunset) review and this notice are in accordance with section 751(c) of the Act and published pursuant to section 777(i)(1) of the Act and 19 CFR 351.218(f)(4).

Dated: August 12, 2015.

Ronald K. Lorentzen  
Acting Assistant Secretary  
for Enforcement and Compliance
