This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is

especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

*Title of Collection:* Data Challenges and Appeals Solution (DCAS)

*OMB Control Number:* 1845-NEW

*Type of Review:* A new information collection

*Respondents / Affected Public:* Private Sector; State, Local or Tribal Governments.

*Total Estimated Number of Annual Responses:* 1,029,889

*Total Estimated Number of Annual Burden Hours:* 175,081

*Abstract:* This is a request for an emergency clearance approval for the Data Challenges and Appeals Solution (DCAS), a new system that will allow institutions to challenge their self-reported data as well as Department calculated metrics. The system will ultimately provide for the receipt, processing, data storage and archiving of data challenges received from institutions for challenges of Gainful Employment (GE) metrics, Cohort Default Rates (institutional and programmatic), and Disclosure Rates and Metrics. This request is for a new collection for the first phase of DCAS, the institutional challenge to the GE completers list provided to institutions by the Department of Education. The other aspects of DCAS will be made functional and available to institutions in stages, to allow for full development and testing, through subsequent system releases.

*Additional Information:* An emergency clearance approval for the use of the system is described below due to the following conditions:

- The Department's contracting process experienced a seven month setback when a contractor solicitation had to be cancelled and re-issued. In order to allow the challenge and appeal process to be implemented on time, the system must be able to accept challenges to the completer lists by November 9, 2015.
- The Department believes that students will be harmed if there is a delay in implementing the challenge process which will ultimately delay the issuance of final rates. The schedule is to have the final rates published and available to disclose to students by January 2017.
- Trends in graduates' earnings, student loan debt, defaults, and repayment underscore the need for the Department to act swiftly. The Gainful Employment accountability framework takes into consideration the relationship between total student loan debt and earnings after completion of a post-secondary program.
- The Gainful Employment regulation was issued after both negotiated rulemaking and notice-and-comment procedures. The full challenge and appeals process is already detailed at 34 CFR 668.405 and 668.406. Burden calculations were likewise already promulgated. Stakeholders and other interested parties have already had significant opportunities to give input on the process.
