Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Comments are invited on: (a) whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Now is the Time (NITT)–Project AWARE Evaluation—Site Notification and Recruitment – New

SAMHSA is conducting a national evaluation of the Now is the Time (NITT) initiative, which includes separate programs—NITT Project AWARE (Advancing Wellness and Resilience in Education)-State Educational Agency (SEA), Healthy Transitions, and two Minority Fellowship Programs (Youth and Addictions Counselors). These programs are united by their focus on capacity building, system change, and workforce development.

NITT–Project AWARE, which is the focus of this activity, represents a response to the third and fourth components of President Obama’s NITT Initiative: making schools safer and focusing on access to mental health services. NITT–Project AWARE is authorized under section 520A of the Public Health Service Act, as amended, and addresses the Healthy People 2020 Mental Health and Mental Disorders Topic Area. Project AWARE grantees are required to provide mental health awareness training to adults who interact with youth, create partnerships to connect youth to mental health services, and create a school climate to reduce violence. NITT–Project AWARE grants were made to 20 state education agencies, each of which will partner with 3-5 local education agencies (LEAs or school districts) in their state to plan and implement Project AWARE activities. Project AWARE activities may be implemented in all schools in the district or may be focused on a specific type or number of schools.

The evaluation of NITT–Project AWARE will examine the process, outcomes, and impact of activities by SEA grantees and their LEA and school partners. The study will evaluate the capacity of SEAs to increase awareness of mental health issues among school-aged youth; provide training for school personnel and other adults who interact with youth to detect and respond to mental illness in children and young adults; connect children, youth, and

families/caregivers who may have behavioral health issues with appropriate services; and improve conditions for learning and behavioral health outcomes for all school-aged youth (grades K-12). At the grantee, district, and school levels, the evaluation will collect data from key staff in all partner organizations. At each Project AWARE and comparison school, annual surveys will be used to collect data from the school principal (or designee), students, and teachers, beginning in spring 2016. The NITT–Project AWARE evaluation will also rely on information collected from existing sources or noted in award requirements.

Site notification and recruitment of Project AWARE grantees and their school and district partners is being conducted for the purpose of enlisting sites for participation in the Project AWARE component of the NITT evaluation. Site notification and recruitment will be conducted in school year 2015-2016. Data collection is planned to begin in spring 2016. Subsequent OMB packages will be submitted separately for each of the three program evaluations (i.e., Project AWARE, Healthy Transitions, MFP – Youth & Addiction Counselors) in fall 2015, requesting approval for instruments and data collection procedures.

Current activities are focused on notification and recruitment of state grantees, grantee and nongrant district, and grantee and nongrant schools. Each grantee state will be asked to support the evaluation by encouraging the grantee districts to cooperate with the national evaluation contractor when contacted, enlist the participation of grantee schools, and provide access to data available through the district's management information system (MIS). Each grantee district will also be asked to assist the study with identifying and encouraging the participation of comparison (i.e, nongrant) schools, where possible. For each treatment (i.e., Project AWARE) school, one matched comparison school will be identified that is similar to the

treatment school in terms of demographic characteristics and rates of incidents of violence and other measures but is not implementing Project AWARE activities. Both treatment and comparison schools will be asked to participate in the school, teacher, and student surveys (teachers and students) and data abstraction from the schools' MIS system.

If a comparison school cannot be identified or recruited from the same grantee district as the treatment school, an attempt will be made to recruit nongrant district and schools in a neighboring community where potential matched schools have been identified.

During site notification and recruitment, the evaluation contractor will send packets that include a letter, brochure, and frequently asked questions, and will follow up with a telephone call. The following entities will be contacted:

- All 20 NITT–Project AWARE grantees at the state level
- An estimated 90 local education agency partners (3-5 districts per state, under the grant requirements)
- An estimated 396 schools in grantee districts that will be implementing Project AWARE activities (“treatment schools”) (approximately 4-5 schools per grantee district are expected to participate in the evaluation). This estimate includes additional schools that may need to be contacted to replace grantee schools that are unable or unwilling to participate.
- An estimated 432 schools in grantee districts that are NOT currently implementing Project AWARE activities (“comparison schools”). This estimate includes additional schools that may need to be contacted to replace comparison schools that are unable or unwilling to participate.

- Approximately 30 nongrant district will be identified and recruited *as needed* if no comparison school is available in a grant district to form a matched pair with a treatment school.
- Approximately 90 comparison schools in nongrant districts will be identified and recruited *as needed* to form a matched pair for treatment schools with no comparison school available. For each treatment school without a comparison school, one best match and two alternates will be identified in each of the 30 districts.

The table below summarizes the reporting burden associated with this notification and recruitment activity. The total burden is 1,058 hours.

Total Burden Hours for the NITT–Project AWARE Site Notification and Recruitment (FY2016)

Respondent	Number of Respondents	Responses per Respondent	Total Number of Responses	Hours per Response	Total Burden Hours
State grantee official	20	1	20	1	20
District official in grantee district	90	1	90	1	90
School official in grantee district – treatment school	396	1	396	1	396
School official in grantee district – comparison school	432	1	432	1	432
District official in nongrant district	30	1	30	1	30
School official in nongrant district	90	1	90	1	90
Total	1,058		1,058		1,058
