Revisions to the California State Implementation Plan, Antelope Valley Air Quality Management District

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is proposing to approve revisions to the Antelope Valley Air Quality Management District (AVAQMD) portion of the California State Implementation Plan (SIP). These revisions concern volatile organic compound (VOC) emissions from graphic arts facilities and aerospace assembly and component manufacturing operations. The EPA is proposing to approve local rules to regulate these emission sources under the Clean Air Act (CAA or the Act). These revisions also address rescission of two rules no longer required, and approval of administrative revisions to the emergency episode plan requirements.

**SUPPLEMENTARY INFORMATION:** This proposal addresses the following local rules: AVAQMD 701 - Air Pollution Emergency Contingency Actions, rescission of AVAQMD 1110 - Emissions from Stationary Internal Combustion Engines (Demonstration), AVAQMD 1124 - Aerospace Assembly and Component Manufacturing Operations, rescission of AVAQMD 1128 - Paper, Fabric and Film Coating Operations, and AVAQMD 1130 - Graphic Arts. In the Rules and Regulations section of this **Federal Register**, the EPA is

approving these local rules and rule rescissions in a direct final action without prior proposal because the EPA believes these SIP revisions are not controversial. If the EPA receives adverse comments, however, the EPA will publish a timely withdrawal of the direct final rule and address the comments in subsequent action based on this proposed rule. Please note that if the EPA receives adverse comment on an amendment, paragraph or section of this rule and if that provision may be severed from the remainder of the rule, the EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

The EPA does not plan to open a second comment period, so anyone interested in commenting should do so at this time. If the EPA does not receive adverse comments, no further activity is planned. For further information, please see the direct final action.
