**Environmental Assessment for Commercial Wind Leasing and Site Assessment Activities on the Atlantic Outer Continental Shelf (OCS) Offshore South Carolina**

**MMAA104000**

**AGENCY:** Bureau of Ocean Energy Management (BOEM), Interior.

**ACTION:** Notice of Intent to prepare an Environmental Assessment

**SUMMARY:** BOEM is announcing its intent to prepare an Environmental Assessment (EA) for potential commercial wind leasing and site assessment activities on the Atlantic OCS offshore South Carolina. The EA will address environmental and socioeconomic effects related to the proposed action, issuance of commercial wind energy leases, and approval of site assessment activities on those leases. This notice serves to announce the beginning of the formal scoping process. The scope of the EA is the range of issues, alternatives, impacts, and mitigation measures to be considered. Scoping will help identify reasonable alternatives and focus the analysis in the EA on potentially significant issues and eliminate from detailed consideration those issues that are insignificant, irrelevant, or that have not changed from previous analyses. BOEM will also use the scoping process to seek public comment and input under the National Historic Preservation Act (NHPA). Additional information on the proposed action may be found at <http://www.boem.gov/South-Carolina/>.

**DATES:** Comments should be submitted no later than [INSERT DATE THAT IS 60 DAYS FROM THE PUBLICATION OF THIS NOTICE IN THE *FEDERAL REGISTER*].

**SUPPLEMENTARY INFORMATION:**

**1. Proposed Action**

The proposed action that will be the subject of the EA is the issuance of wind energy leases within all or some of the Call Areas offshore South Carolina and the approval of site assessment activities (including the installation and operation of a meteorological tower and/or buoys) on those leases. BOEM will also consider the environmental impacts associated with the site characterization activities (including geophysical, geotechnical, archaeological, and biological surveys) that it anticipates lessees might eventually undertake to fulfill the information requirements for Site Assessment Plans and Construction and Operations Plans found at 30 CFR § 585.610 and § 585.626 respectively.

**2. Description of the Call Areas**

A detailed description of the Call Areas can be found in the Commercial Leasing for Wind Power on the Outer Continental Shelf Offshore South Carolina – Call for Information and Nominations that is being published concurrently with this notice. A map of the Call Areas can be found at: <http://www.boem.gov/South-Carolina/>. BOEM identified the four Call Areas in consultation with other Federal agencies and the BOEM South Carolina Intergovernmental Renewable Energy Task Force.

**3. National Historic Preservation Act**

BOEM will use the NEPA process to inform the Section 106 consultation process of the NHPA (54 U.S.C. § 300101 *et seq.*), as provided for in 36 CFR § 800.2(d)(3). BOEM is seeking

public comment and input regarding the identification of historic properties or potential impacts to historic properties from the proposed action, as defined by the NHPA.
