SUPPLEMENTARY INFORMATION:

I. Background

FDA is announcing the availability of a draft document entitled "Deviation Reporting for Human Cells, Tissues, and Cellular and Tissue Based Products Regulated Solely Under Section 361 of the Public Health Service Act and 21 CFR Part 1271; Draft Guidance for Industry." The document provides certain establishments that manufacture HCT/Ps, regulated solely under section 361 of the PHS Act and the regulations under 21 CFR part 1271, with recommendations and relevant examples for complying with the requirements under 21 CFR 1271.350(b) to report
HCT/P deviations. The examples provided in the draft guidance are intended to illustrate those HCT/P deviations that have been most frequently reported to FDA, CBER.

The draft guidance does not apply to reproductive HCT/Ps or to HCT/Ps regulated under 21 CFR part 1270 and recovered before May 25, 2005. The draft guidance does not apply to health professionals who implant, transplant, infuse, or transfer HCT/Ps into recipients. The draft guidance also does not apply to HCT/Ps that are regulated as drugs, devices, and/or biological products under section 351 of the PHS Act and/or the Federal Food, Drug, and Cosmetic Act, nor does it apply to investigational HCT/Ps subject to an investigational new drug application or an investigational device exemption.

This draft guidance is being issued consistent with FDA’s good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, will represent the current thinking of FDA on Deviation Reporting for Human Cells, Tissues, and Cellular and Tissue Based Products Regulated Solely Under section 361 of the Public Health Service Act and 21 CFR part 1271. It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations.

II. Paperwork Reduction Act of 1995

This draft guidance refers to previously approved collections of information found in FDA regulations. These collections of information are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520). The collections of information in 21 CFR part 1271 have been approved under OMB control number 0910-0543.

III. Other Issues for Consideration
The draft guidance is being distributed for comment purposes only and is not intended for implementation at this time.
